EQ Core

OVERVIEW

Core includes 50 hours of hands-on, dynamic instruction, activities, practical projects, networking, laughter, and learning. These courses are highly active, brain-based, and experiential. The content is based on 40 years of practical teaching experience and the *Self-Science* curriculum featured as a model in Daniel Goleman's 1995 bestseller, *Emotional Intelligence*. Certified Practitioners are delivering programs in over 150 countries.

After completing the certifications, you will access a range of development tools for yourself and clients, and can purchase and use the best-in-class EQ assessment, SEI – plus a complete system of supporting tools and curricula.

Core Part 1: Unlocking EQ

Dive into Six Seconds' powerful methodology and learn why, what, and how emotional intelligence works. Experience the method and map your future with EQ.

Core Part 2: EQ Practitioner Certification

Join the leaders in the field to raise emotional intelligence in yourself and others. Develop an in-depth understanding of emotional intelligence as you gain new tools to apply immediately to fuel positive change at work, at home, and at school – starting with yourself.

EQ MADE FOR YOU

Six Seconds' core certifications equip you with an in-depth experience of EQ and the Six Seconds Model.

For most participants, this is, by far, the most valuable take-away from the program. Your own EQ practice is imperative to be truly effective as an EQ change agent, leader, teacher, coach, etc.

You will be able to effectively utilize a system of EQ development tools yourself, and in your work. Then, to be most effective with the Six Seconds' methodology, continue on the certification path toward mastery.

Who should attend?

This set of courses is designed for anyone serious about spreading emotional intelligence, starting with themselves. Individuals and leaders frequently attend for their own growth; practitioners (trainers, organizational development professionals, coaches, counselors, psychologists, educators) come to bring Six Seconds' approach to their work and lives.

Six Seconds

KEY CONCEPTS

For 25 years we've led the way, turning the neuroscience of emotion into practice. With seven validated assessments and a wide range of learning materials, Six Seconds Certified professionals use these proven tools and methods to create value around the globe in every sector. For us, EQ isn't a "theory" or just one test we publish, it's the difference that makes the difference.

The Six Seconds Model of EQ-into-Action begins with three important pursuits:

Become more aware (noticing what you do) - Know Yourself.

Act more intentionally (doing what you mean) - Choose Yourself.

Be more purposeful (doing it for a reason) - Give Yourself.

This model is both simple and substantive. It's easy to learn, practical, and action-oriented providing a process framework for putting the science of emotional intelligence into practice.

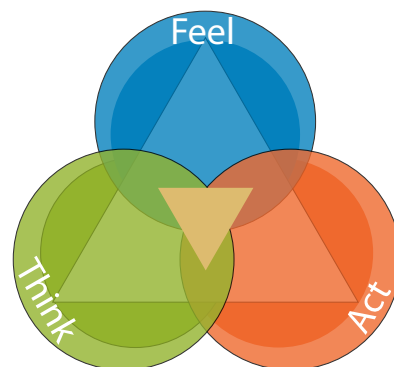

There are eight learnable, measurable competencies that make the model even more practical; these are covered in the EQ Practitioner course.

More: 6sec.org/eq

At the core, Six Seconds' work is about the triangle shown to the right. Our feelings, thoughts, and actions are constantly interacting, affecting one another. As we become more aware of these dynamics, we can expand our choices.

More: 6sec.org/tfa

Six Seconds' Change MAP provides framework for designing and delivering coaching as a transformational process. This model provides a structure to support Six Seconds practitioners in designing and delivering effective programs.
