# **THE VALUE OF HEALTH, HEALTH AS A VALUE**

An event for life, sciences and businesses,  
to support partnership and networking

## THE EVENT

**Meet in Italy for Life Sciences** is the national matchmaking event dedicated to enterprises, startups and stakeholders in the field of life sciences.

The fifth edition of the event will take place in **Bologna** from **October 10 to 12, 2018**.

## SELECT THE OPPORTUNITY THAT BEST FITS YOU

Are you an enterprise, a startup or a researcher and you want to make yourself known and open to new business opportunities?

Register to the **International Brokerage Event**: two days of business meetings and match-making tailored upon your needs. The event is organised in partnership with Enterprise Europe Network.

Are you a startup or an enterprise with innovative ideas and you are looking for investors?

Submit your application to the **Italian Healthcare Venture Forum – Bootcamp 2018** and gain access to a mentorship programme that will help you pitch your idea in front of a jury of international investors and experts. The event is organised in partnership with Tech Tour.

Are you interested in gaining more in-depth knowledge about trends and innovation strategies in the life science sector?

Don't miss the opportunity to discuss with experts from the business, academic and institutional domains about digital transformation in different life sciences sectors. Take part in **conferences, IHVF Bootcamp open sessions, and thematic workshops**.

*Registration is required at [meetinitalylifesciences.eu](http://meetinitalylifesciences.eu)*

## AN EVER-GROWING EVENT

## FOCUS ON

Common thread during the Meet in Italy for Life Sciences event is the use of big data within the domains of **P4 Medicine: Predictive, Preventive, Personalized and Participatory**. Big data are indeed one of the main drivers in the transformation of life sciences, as they play a role of paramount importance in the innovation process of health and wellbeing within the realm of precision medicine.

**Meet in Italy for Life Sciences** is an initiative of the National Technological Cluster for Advanced Life Sciences in Italy (ALISEI). The 2018 edition is promoted and organised by the Emilia-Romagna Region, with the support of Aster, the regional Consortium for innovation and technology transfer. The event is also in line with activities of the European Enterprise Network, active in over 60 European and extra-European countries. Additional partners in the organization of the events are stakeholders from territorial ecosystems and representatives of relevant business association in the covered areas.
