HISTAN: HIGH SPECIALISATION BEAUTY SUN PRODUCTS

ACTIVE SUN PROTECTION
Histan

THE FIRST ACTIVE SUN PROTECTION LINE, DESIGNED TO SUPPLEMENT SPECIFIC PROFESSIONAL TREATMENTS

HISTAN ACTIVE SUN PROTECTION

THE FIRST ACTIVE
SUN PROTECTION LINE,
DESIGNED TO SUPPLEMENT
SPECIFIC PROFESSIONAL
TREATMENTS¹

¹Custom-designed formulas to act as a follow-up to **Histomer C-30** (body) and **Formula 201** (face) professional treatments but also applicable to other professional treatments.

TOTAL PROTECTION

The Histan line is based on an **exclusive combination of latest generation sun filters**: a perfect screening system offering effective, reliable and safe protection.

PROTECTION SMART

Histan is a line of smart sun products designed to protect the skin and take advantage of the sun's rays **to correct blemishes and enhance appearance and physical fitness**.

CUTTING EDGE PROTECTION

The Histan line is based on a prestigious active ingredient, **Albizia Julibrissin Anti-glycation Complex**, which can block the most significant mechanism causing skin condition to deteriorate: Collagen Glycation*. Recent studies have shown that the efficacy of Albizia Julibrissin Anti-glycation Complex is improved by the exposure to I.R. sun rays.

*Glycation causes cross-linking of Collagen fibres, a process resulting in all the most common blemishes on the face and body: loss of tone and suppleness, wrinkles, dark spots and cellulite nodules

HISTAN SUN PRODUCTS ALLOW TO OBTAIN EXCELLENT AESTHETIC RESULTS THROUGH EXPOSURE TO THE SUN

**ACTIVE PROTECTION
BODY CREAM SPF 15**
200 ml

**ACTIVE PROTECTION
BODY CREAM SPF 30**
200 ml

- **FORMULA:** body creams.
- **MAIN USE:** UVA/UVB sunscreen: SPF 15 (medium protection) / SPF 30 (high protection).
- **ADDITIONAL ACTION:** effective against cellulite and localised adipose tissue. Provide an in-depth draining and slimming action on cutaneous tissue.
- **AREA:** body.
- **FORMULA BENEFITS:** anti-glycation, dermatologically tested, photostable, sweat and water resistant formulas.
- **MAIN INGREDIENTS:** UVA-UVB filters, marine Plankton, Albizia Julibrissin Anti-glycation Complex, stem cells of Syringa Vulgaris, Opuntia Ficus-indica..
- **RECOMMENDATIONS FOR USE:** apply with a light massage before exposure to the sun, and several times a day. Massage intensively on areas of the body where you want to focus the slimming and draining action (thighs, ankles, buttocks, abdomen, arms).

PROTECTIVE AND SLIMMING EFFECT AGAINST
CELLULITE AND LOCALISED ADIPOSE TISSUE

**ACTIVE PROTECTION
SPECIAL SPRAY SPF 15**
200 ml

**ACTIVE PROTECTION
SPECIAL SPRAY SPF 30**
200 ml

- **FORMULA:** no-gas sun lotion spray.
- **MAIN USE:** UVA/UVB sunscreen: SPF 15 (medium protection) / SPF 30 (high protection)
- **ADDITIONAL ACTION:** make tissues more resistant, toned and supple while avoiding the appearance of discolouration, dark spots and other unwanted effects.
- **AREA:** face – body. Also suitable for children.
- **FORMULA BENEFITS:** photostable, environmentally friendly, sweat and water resistant, dermatologically tested formulas.
- **MAIN INGREDIENTS:** UVA / UVB sunscreens, Albizia Jilibrissin Anti-glycation Complex, Vitamin E, Opuntia Ficus-Indica, NMF (Natural Moisturising Factor).
- **RECOMMENDATIONS FOR USE:** apply before exposure to sun and several times a day. Also works upside down.

PROTECTIVE AND TONING EFFECT AGAINST
SAGGING SKIN, SPOTS AND DISCOLOURATION

**ACTIVE PROTECTION
SPECIAL OIL SPF 6**
200 ml

- **FORMULA:** no-gas sun oil spray.
- **MAIN USE:** SPF 6 UVA/UVB sunscreen (low protection).
- **ADDITIONAL ACTION:** high tanning action. Encourages rapid, intense and even tanning.
- **AREA:** face – body.
- **FORMULA BENEFITS:** photostable, sweat and water resistant, environmentally friendly, dermatologically tested formula.
- **MAIN INGREDIENTS:** UVA-UVB filters, Kukui oil, tan activator (Caproyl Tyrosine), Vitamin E.
- **RECOMMENDATIONS FOR USE:** apply before exposure to sun and several times a day. Also works upside down.

PROTECTS, TANS, TONES

**ACTIVE PROTECTION
SPECIAL CREAM SPF 50+**
100 ml

- **FORMULA:** face and body cream.
- **MAIN USE:** SPF 50+ UVA/UVB sunscreen (ultra-high protection).
- **ADDITIONAL ACTION:** leaves tissues more resistant, toned and hydrated, repairs damage caused by previous excessive exposure to sun (spots and photo-ageing).
- **AREA:** face – body. Also suitable for children.
- **FORMULA BENEFITS:** suitable for very sensitive skin, sun intolerant skin and specific critical areas (moles, scars, rosacea, vitiligo, actinic keratosis). Dermatologically tested, sweat and water resistant, photostable formula.
- **MAIN INGREDIENTS:** UVA-UVB filters, Albizia Julibrissin Anti-glycation Complex, Repairing Zyma-Complex, Centella Asiatica stem cells, Oxygenating Vita-complex.
- **RECOMMENDATIONS FOR USE:** apply before exposure to sun and several times during the day.

ULTRA-HIGH PROTECTION / ANTI-AGEING
FOR FACE AND BODY

QUICK TAN SPECIAL CREAM
250 ml
ALSO AVAILABLE IN 10ml SINGLE-DOSE FORMAT

- **FORMULA:** face and body tan enhancing cream.
- **MAIN USE:** accelerates, intensifies and prolongs tanning for an even effect. Prevents formation of spots.
- **ADDITIONAL ACTION:** anti-age firming effect. Leaves skin firmer, more hydrated and supple.
- **AREA:** face – body.
- **FORMULA BENEFITS:** suitable for very sensitive skin, sun intolerant skin and specific critical areas (moles, scars, rosacea, vitiligo, actinic keratosis). Dermatologically tested, sweat and water resistant, photostable formula, also suitable for children.
- **MAIN INGREDIENTS:** UVA-UVB filters, Albizia Julibrissin Anti Glycation Complex, Repairing Zyma-complex, Centella Asiatica stem cells, Oxygenating Vita-complex.
- **RECOMMENDATIONS FOR USE:** can be used in a variety of situations: a) to prepare skin a few days before exposure to sun; b) during exposure to intensify tan; c) for 2-3 weeks after the summer holiday to prolong tan.

PREPARES, INTENSIFIES AND
PROLONGS TAN

AFTER SUN SPECIAL CREAM 400 ml

- **FORMULA:** after sun cream.
- **MAIN USE:** calms, refreshes and repairs skin after exposure to sun. Intense skin hydrating action, soothes reddening and burns.
- **ADDITIONAL ACTION:** leaves tissues more resistant, toned and supple, helps prevent long-term damage caused by excessive and repeated exposure to sunlight.
- **AREA:** body. Also suitable for children.
- **FORMULA BENEFITS:** environmentally friendly, anti-glycation, dermatologically tested formula.
- **MAIN INGREDIENTS:** Tan Regulating Complex: (Tyrosine, Caproyl Tyrosine, Acetyl Tyrosine, Palmitoyl Tripeptide-40, Adenosine Triphosphate), Albizia Jilibrissin Anti-glycation Complex, Centella Asiatica stem cells.
- **RECOMMENDATIONS FOR USE:** can be applied once or several times a day after exposure to sun, shower and/or in the evening before bed.

SOOTHES, REPAIRS AND REFRESHES

ACTIVE PROTECTION HAIR SPRAY SPF 15 100 ml

- **FORMULA:** two-phase hair spray.
- **MAIN USE:** SPF 15 UVA/UVB sunscreen (medium protection).
- **ADDITIONAL ACTION:** coats hair with a thin shield that protects it from the harmful effects of sunlight and strengthens colour.
- **AREA:** hair.
- **FORMULA BENEFITS:** leaves your hair looking shiny and silky smooth.
- MAIN INGREDIENTS:** UVA-UVB filters, yogurt proteins (Yogurtene), Argan Oil, Macadamia Oil, Opuntia Ficus-Indica, Vitamin E, Panthenol.
- **RECOMMENDATIONS FOR USE:** spray on hair before exposure to sun and apply to the entire length of hair with a comb. Avoid contact with the eyes. Shake before use. Also works upside down.

FOR SHINY, SILKY HAIR. PROTECTS COLOUR

ACTIVE PROTECTION LIP BALM SPF 50+ 15 ml

- **FORMULA:** anti-ageing cream for lips and lip contour.
- **MAIN USE:** SPF 50+ UVA/UVB sunscreen (ultra-high protection).
- **ADDITIONAL ACTION:** improves hydration and suppleness. Combats thin vertical lines around lips and all signs of photoageing.
- **AREA:** lips, lip contour and sensitive facial areas.
- **FORMULA BENEFITS:** particularly rich formula, extremely nourishing and hydrating, dermatologically tested.
- **MAIN INGREDIENTS:** UVA-UVB sunscreens, Albizia Jilibrissin Anti-glycation Complex, Centella Asiatica stem cells, NMF (Natural Moisturising Factor).
- **RECOMMENDATIONS FOR USE:** apply before exposure to sun and several times during the day with a delicate fingertip massage.

ULTRA-HIGH PROTECTION
/ ANTI-AGEING FOR
LIPS AND LIP CONTOUR

ACTIVE PROTECTION FACE TREATMENT 50 ml

- **FORMULA:** anti-ageing sun cream for face.
- **MAIN USE:** SPF 20 UVA/UVB sunscreen (medium protection).
- **ADDITIONAL ACTION:** combats wrinkles, spots and photo-ageing, hydrates, nourishes and firms skin tissue creating an even complexion and enhances tan.
- **AREA:** face - neck.
- **FORMULA BENEFITS:** anti-glycation, dermatologically tested, photostable formula.
- **MAIN INGREDIENTS:** UVA/UVB sunscreens, Albizia Jilibrissin Anti-glycation Complex, Repairing Zyma-Complex, Centella Asiatica stem cells, Tan Regulating Complex.
- **RECOMMENDATIONS FOR USE:** apply before exposure to sun and several times a day.

ANTI-AGEING / ANTI-GLYCATION
FACE AND NECK
PROTECTIVE TREATMENT

AFTER SUN FACE TREATMENT 50 ml

- **FORMULA:** after sun anti-ageing face cream.
- **MAIN USE:** anti-ageing and after sun repair cream, designed to regenerate, rehydrate and de-redden the skin after exposure to sun.
- **ADDITIONAL ACTION:** combats collagen glycation and signs of photo-ageing, wrinkles, spots and loss of suppleness.
- **AREA:** face - neck.
- **FORMULA BENEFITS:** anti-glycation, antiageing, dermatologically tested formula.
- **MAIN INGREDIENTS:** Albizia Jilibrissin Anti Glycation Complex, Repairing Zyma-Complex, Centella Asiatica stem cells, Tan Regulating Complex, Opuntia Ficus Indica.
- **RECOMMENDATIONS FOR USE:** can be applied once or several times a day after exposure to sun, shower and/or in the evening before bed.

ANTI-AGEING / ANTI-GLYCATION
FACE AND NECK
REPAIRING TREATMENT

THE MAIN COMPONENTS OF THE HISTAN LINE

SUNSCREENS

The Histan line is based on an exclusive combination of next-generation sunscreens, all of which completely photostable, incorporated in a matrix that is highly resistant to water and sweat: this combination forms a perfect shield ensuring above-average protection at all times.

ALBIZIA JULIBRISSIN ANTI-GLYCATION COMPLEX

A special combination of silk tree (Albizia Julibrissin) extracts and the amino acid Carnosine: a complex that not only stops the glycation process of collagen but reverses it (visibly reducing wrinkles, dark spots and other unsightly marks). This extraordinary reversal can be facilitated by exposure to I.R. solar rays.

SLIMMING AND ANTI-CELLULITE ACTIVE INGREDIENTS

The incredible lipid extracts of marine plankton, effective on all local fatty deposits and cellulite in particular. They demonstrate a notable synergy with the Anti-glycation Complex.

CENTELLA STEM CELLS

Centella Asiatica stem cells give the Histan line incredible regenerating and firming properties. They also demonstrate a notable synergy with the Anti-glycation Complex.

ANTI-FREE RADICAL AND DNA REPAIRING FACTORS (REPAIRING ZYMA-COMPLEX)

Yeast cell extracts (Bifida Ferment Lysate), powerful repairers of cellular DNA damaged by excessive exposure to the sun. They are also highly effective at combating the formation of free radicals, particularly when associated with other free radical neutralisers such as Tocopherol or Ferulic Acid.

SOOTHING/ANTI-REDNESS AGENTS

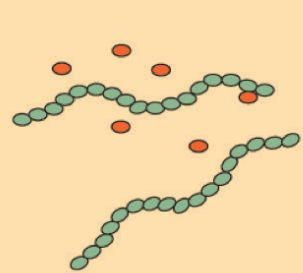

A special embryonic extract of the prickly pear (Opuntia Ficus-Indica) which has proven to have a notable calming effect, preventing burning and reddening. Other important anti-redness agents in the Histan line are Bisabolol, Camomile and Common Mallow.

TAN ENHANCERS (TAN REGULATING COMPLEX)

There are 2 different families of tan enhancers in the Histan line: 1. the family of classic precursors to melanin (Tyrosine, Acetyl-tyrosine, Caproyl-tyrosine), always present in very high concentrations; 2. the Peptides family (next-generation enhancers such as Palmitoyl Tripeptide-40).
