The beauty of feeling well

The Graduated Compression lines

"The beauty of feeling well" (La bellezza di star bene) for Elly is not only a motto, it is the result of the choice of total quality present in the Carezza products: a wide range of stockings, tights and knee-highs of every type, suitable for all events and every occasion. Like the Graduated compression lines characterized by the exclusive caring massage: a real beauty treatment for legs.

In addition to the BASIC items, proposed in different deniers, new to the range are the fashionable patterned models, joined by DREAM tights, the revolutionary feather-light SOPHIE tights and the complete mother-to-be collection.

The latest creation is dedicated to sportsmen with the new unisex ACTIVE EFFECT SPORT knee-highs which enrich the knee-highs selection for men and women.

A mix of fashion and wellbeing

An active solution for heavy and tired legs, with a wide selection of products that combine the beneficial effect of graduated compression with aesthetic beauty.

SOPHIE
BASIC
MATERNITY
DREAM

ACTIVE effect
XSport

50%

Tights, stockings and knee-highs that considerably improve blood circulation, keeping legs active and vital, thanks to the special massaging effect of graduated compression that reduces in intensity from the ankles to the thighs, testified by the millimetres of mercury mmHg. All the items have reinforced toe and heel to adjust correctly the maximum massage to the ankle.

70%

This collection includes the 40, 70 and 140 deniers to cover different compression needs.

100%

Light support, for those who suffer from tiredness or aesthetic problems like cellulite; medium support for those who have minor circulation problems; strong support for those who show more serious circulation problems.

PRODUCTION CERTIFIED BY HATRA TEST

the new generation of
graduated compression products

sophie

Unrivalled in elegance and wellbeing

The extraordinary “feather-light effect” is the result of a winning combination:
the latest technology in highly-breathable yarn
and the beneficial massage of graduated compression
are combined to make legs look better than ever.

When the fibres come into contact with the skin,
they absorb its humidity and release it into the atmosphere,
ensuring a sensation of lightness that lasts all day, in every season:
under the trousers or with a light dress.

Extra-sheer Smooth Silky

Soft and silky to the touch, in many bright colours,
they are more transparent compared to
traditional graduated compression models, in one word:

Essenzial Oils

Silver Ions

Microcapsules

A collection of tights resulting
from the most cutting-edge
research, to offer maximum
comfort and relax. Besides the
benefits of graduated compression,
their special yarn, enriched with
Silver ions, has an effective anti-
bacterial and sanitizing effect.
Special microcapsules are added
during the dyeing phase: when they
come into contact with skin, they
release their precious content in
aromatic and emollient essential
oils. A real beauty treatment for
legs in the form of fashionable and
elegant models, with revitalising
and toning effects.

All you want to know
about graduated
Carezza compression
in 10 simple answers

1 My legs are tired and swollen when I get home. What can I do about it?

Graduated compression models are the right solution for the active woman, who works or is on the run all day. Thanks to their active beneficial massage, you can avoid the troubles caused by heavy, tired legs until the end of the day, giving your legs a light and energetic feeling.

2 How do graduated compression products work?

Thanks to their special spiral spinning with valuable materials that ensure progressive support, compression gradually decreases from the ankle – where it is at its maximum – up to the thigh. This is how the massage that favours blood flow to the heart is generated, avoiding staunching and the resulting swelling.

3 When should I wear them?

As long as possible, during the day, in order to support legs and favour circulation. Especially for whoever must keep or stand still for long periods of time, for example when travelling, wearing compression graduated products from the morning helps preventing the feeling of tiredness and the uncomfortable swelling of legs.

4 Do you notice them once they are on?

Absolutely not! They are beautiful and elegant just like other tights and you can choose from 3 deniers ranges: 40 den for a light compression, 70 den for a firmer massage to prevent slight blemishes and small troubles and 140 den for a therapeutic action or for whoever already suffers from poor circulation (e.g. surface capillaries).

5 What are the deniers?

Deniers are an international unit of measure that indicate the weight expressed in grams of 9000 metres of yarn, the average length of the yarn the tights are made of: the higher the deniers, the thicker the yarn that the tights are spun with and the thicker the tights.

Is there a special way to wear them?

6 In order to achieve the best massaging effect, the products should be worn by widening the toe, correctly positioning the heel and giving a good pull up so that you get the right compression on the ankle, calf and thigh, according to the models. Special attention shall be paid when putting on stay-up stockings: avoid wearing them after application of creams, oils etc.; always wash them with neutral soap after use to ensure the hold of the silicon lace top.

7 How do they go with fashion trends?

There is no problem for whoever wants to dress in the latest craze. There are different models and colours of graduated compression knee-highs, stockings and tights. And if you want to give your look a touch of class, Elly offers patterned graduated compression models: Resille, Diagonal and Carré by Carezza.

8 How long do these products last? Are they resistant?

They are even more resistant than normal knee-highs, stockings and tights. Thanks to the quality of the yarns and the elasticity/adherence to the legs, they are particularly hard to ruin. By following a few little practical precautions, such as hand washing with a mild detergent, they will last for up to 35 washings keeping the compression value unaltered.

9 Can men also find the right product for them?

Of course they can! The unisex Lui&Lei and Active Effect lines by Carezza also help men in different situations: when travelling, at work and when playing sports with the new Sport knee-highs.

10 Why should I choose Carezza by Elly?

Because Elly, with its 50 years' experience, is the University of Stockings, to this day it is still in the forefront of technological innovations of products such as, for example, the new Sophie line, extra-sheer and invisible, silky and elegant. Elly is the specialist in wellbeing and beauty products. Try them right away, your legs will prove it.

* Their use is not advised in case of dermatitis, skin wounds or injuries.

Active Effect knee-highs, manufactured with high quality yarns for a long-lasting result, are indicated for athletes as they improve blood circulation and allow a greater oxygenation of muscles. In fact, the graduated compression eases venous blood return which allows for better oxygenation thus delaying ache, cramps and fatigue. As a result, athletic performance will be optimized and post-workout recovery will be faster. The yarn with copper oxide in the foot prevents the proliferation of bacteria causing odours and improves skin appearance, providing a feeling of wellbeing.

CAREZZA 70 MICROFIBRE
Soft and practical knee-highs, rib mesh, rim and toe that do not constrict.
Sizes: I - II - III - IV - V
Colours: Beige, Marrone, Grigio, Nero, Blu.

The massaging effect of graduated compression, maximum at the ankle and decreasing up to the calf, stimulates blood circulation of legs thus preventing swelling and tiredness. The Active Effect knee-highs are made of high-quality yarns to ensure long duration: comfortable and elegant, they are particularly indicated for people with an active lifestyle, for those who travel, who spend a long time standing or sitting and for sportsmen. At every time of the day, they tone up legs and offer pleasant wellbeing.

an Italian story of Quality and Success

Founded in 1961 by Ubaldo Elli, who immediately decides to use his surname as the trademark - by simply modifying the last letter “i” into a “y” - the Elly stocking factory is established as a manufacturer of quality tights for ladies.

In 1969, the production of relaxing stockings starts with the brand “Carezza” and distribution spreads all over Italy.

In 1978, a new production unit is opened over an area of more than 30.000 sqm and Elly products are launched on the European market. In this period Ubaldo's three children also join the company to assist him in the management.

In 1989, a new local unit is opened to accommodate the offices, the production area, the storehouse for finished products and the dispatch department.

In 2000, Elly brilliantly achieves the Company Quality Certification and in 2003 it also obtains the Quality Certification for Designing.

Today, thanks to its electronic circular-knitting machines, Elly has a production capacity of more than 400.000 pair per month.

“The beauty of feeling well” (La bellezza di star bene) for Elly is not only a motto: it is the summary of the choices that have been distinguishing its vision and working methods for over 50 years.

And thanks to these choices, the brand achieved a high level of specialization in the sector of stockings and tights; the product range has benefited from such experience, as Elly always opts for total quality.

This aim involves:

- the research department, always focusing on dynamic comparison with phlebologists;
- the materials used, precious yarns that meet the high requirements of the company;
- cutting-edge machinery with advanced technologies, to ensure high-end production standards;
- the scrupulous controls, carried out on raw materials, on working phases and on finished products;
- the creation of new products, always up-to-date as far as new colours, new elegance and new wellbeing are concerned.
