## THE COMPANY

**For over 50 years**, Elly has been more frequently regarded as a protagonist in the market, thanks to the quality and innovation of its products, responding and caring for consumers' needs. Created from the collaboration between phlebologists and Elly technicians, ANTISTRESS products are the ideal solution to all your customers' requests.

## THE PRODUCTION

Continual investments in production structures together with a constant updating in new products designing, as well as high-quality standards from the yarn to the finished product, make Elly a leading company worldwide. The manufacturing of graduated compression products requires a more sophisticated technology which allows achieving a different tension of the yarn in the various points of the leg, from the ankle to the thigh, to obtain a specific level of graduated pressure, certified by the HATRA test.

## QUALITY AND CERTIFICATIONS

The ISO 9001 quality management system, based on accurate controls during the different manufacturing steps, ensures the quality of the production and the best assistance to meet the customers' needs. The Oeko-Tex standard 100 certificate guarantees the respect of human-ecological requirements of ANTISTRESS products. All the products are CE marked.

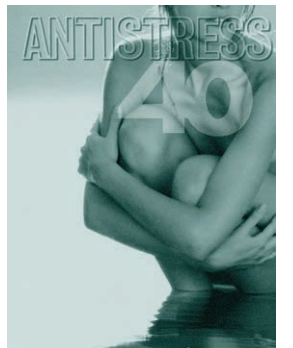

## THE GRADUATED COMPRESSION

### a HEALTHFUL massage

#### Light compression

##### ANTISTRESS 40 VERY SHEER

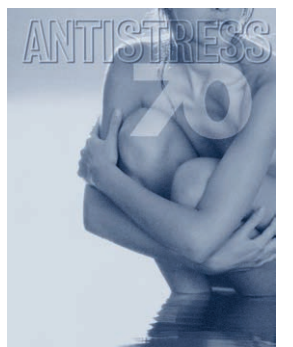

In elegant transparent smooth knit, ANTISTRESS 40 is mostly recommended for women with mild problems to the superficial bloodstream. The graduated compression massage favours the circulation, avoids legs tiredness and helps reducing cellulite blemishes.

#### Medium compression

##### ANTISTRESS 70 PREVENTIVE

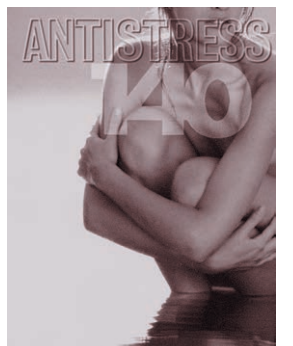

Elegant and sheer, ANTISTRESS 70 is the ideal solution for those who already suffer from circulation problems and wish to prevent more serious ailments. The constant massage favours the venous reflux towards the heart and provides an effective preventive action.

#### Strong compression

##### ANTISTRESS 140 FIRM SUPPORT

It is particularly indicated for those who show the first signs of swelling and varices. ANTISTRESS 140 provides an active massage on the most critical areas of the legs, providing relief and constant support all day long.

#### Therapeutic compression mmHg

The helicoidal weave of these products, made of smooth microfibre and double-covered Lycra, allows the products structure of this line to adapt perfectly to the leg shape. The excellent fibres maintain the compression properties and the dimensional steadiness unaltered through time. Recommended to correct high blood pressure and for veins sclerosing treatments. Men's products are also available, particularly designed for those who practice sports, who stand or sit for prolonged periods of time or for long journeys. They prevent the onset of blood circulation problems and eliminate the feeling of tiredness and swollen legs.

ANTISTRESS®

*denlight*

**The new generation  
products  
with the “invisible”  
graduated  
compression**

Denlight products, made with a special highly breathable yarn, are extraordinarily transparent, soft and silky to the touch, giving an unprecedented combination of comfort and elegance and unique beauty to your legs. The beneficial effect offered by the capacity of releasing the damp from the skin, along with the graduated compression massage, gives your legs more comfort for the whole day and in all the seasons, under the trousers or with a light dress.

—50%

This is the leading range of the great ANTISTRESS family which includes supporting and relaxing stockings, knee-highs and tights in elastane which prevent circulation problems and provide relief from leg fatigue when standing or sitting for long periods. The polystretch structure, ensuring good fit, is transparent, air-permeable and ranges from 40 to 70 to 140 deniers. The special helicoidal weave provides a beneficial graduated compression massage, maximum at the ankle (100%) and decreasing until the thigh (50%) to help venous reflux.

Also available are the Maternity tights with a special panty which harmoniously follows the developing of waist and hips and the Queen Size models with enlarged supporting panty for the best fit.

**active**  
EFFECT

A new line of unique knee-highs in microfibre, cotton or wool for him and for her, elegant, with soft band and comfortable toe that do not constrict. Manufactured with high-quality yarns to ensure a long duration. Suitable to be worn at any time of the day, at work, when travelling or playing sports, they offer your legs a pleasant sensation of wellbeing. It is possible to choose between two different compression values:

**MEDIUM COMPRESSION 13-17 mmHg:** ideal for those who show the first signs of circulation problems, it ensures an effective preventive action and relaxing massage to your legs.

**AR1201 ACTIVE EFFECT 70 MICROFIBRE**  
70 deniers Lycra knee-highs, microfibre, rib mesh.  
Sizes: XS - S - M - L - XL  
Colours: Beige - Marrone - Grigio - Nero - Blu

**AR3102 ACTIVE EFFECT 120 COTTON**  
120 deniers cotton - Lycra knee-highs, rib mesh.  
Sizes: XS - S - M - L - XL  
Colours: Grigio - Nero - Blu

ANTISTRESS®

linea

**mmHg**

An active principle  
for the wellbeing of legs.

G

C

B

This is the curative range called “mmHg” for the high compression value exerted by the yarns and it also includes products for men.

The excellent fibre in Lycra® guarantees a longer duration than usual. Double-covered Lycra® helps compression, retaining its long term efficiency and dimensional stability. The particular helicoidal weave, encouraging the venous backflow, allows the product to fit perfectly to the shape of the legs, making this product particularly suitable for post-surgery rehabilitation and for correcting circulation problems in the early stages.

These stockings, knee-highs and tights are divided into different levels of compression.

ANTISTRESS®

sensiline

A QUALITY CHOICE  
FOR THE WELLBEING  
OF SENSITIVE AND  
DIABETIC FEET

Sensiline socks are an excellent choice to grant your feet the ideal wellbeing and health conditions for all daily activities, in particular for sensitive feet. Sensiline products have been conceived for diabetes sufferers, who need to wear specific socks every day. For them, it is essential to prevent small wounds by wearing proper shoes and comfortable socks made of high-quality materials.

Sensiline offers a wide range of socks made of cotton, cotton/silver, angora, silk, Amicor (antibacterial fibre) to cater to all requirements and provide a comfortable feeling at the same time.
