

LEADER IN THE RESEARCH AND
MANUFACTURE OF MEDICAL DEVICES

TOTAL REFLUX RELIEF: CLINICALLY PROVEN FROM 0 TO 99 YEARS!

GASTROTUSS

TREATMENT OF GASTROESOPHAGEAL REFLUX DISEASE

Anti-reflux Syrup

Gastrotuss is a Medical Device with mechanical action, indicated for the treatment of gastroesophageal and/or laryngopharyngeal reflux.

- Reduces symptoms related to Gastroesophageal Reflux, like: globus sensation, cough, pyrosis, esophagitis, dysphonia, rhinopharyngeal phlogosis, disepithelization and regurgitation;
- With Magnesium Alginate, which forms a mechanical barrier against the retrograding of the gastric contents;
- Adjuvant in the re-epithelization process of the mucosas;
- Reduces the time of permanence of the gastric content in the stomach;
- Gluten and Lactose free.

Excellent in synergy with PPI

Presentation:

- 180 ml bottle
MOQ: 12.000
- 500 ml bottle
MOQ: 5.500

Medical Device
Class IIa

Shelf Life: 30 months

Presentation:

20 monodose sachets
(20 ml each)
MOQ: 6.800

Medical Device
Class IIa

Shelf Life: 30 months

Presentation:

24 chewable tablets
MOQ: 10.000

Medical Device
Class IIa

Shelf Life: 30 months

TREATMENT OF GER AND GERD IN INFANTS AND CHILDREN

Pediatric Anti-Reflux Syrup

GastroKids is a Medical Device indicated for the treatment of gastroesophageal and/or laryngopharyngeal reflux in infants and children.

- Reduces the symptoms related to Gastroesophageal Reflux (regurgitation, cough, pyrosis, esophagitis, dysphonia);
- With Magnesium Alginate, which forms a mechanical barrier against the retrograding of the gastric contents;
- Adjuvant in the re-epithelization processes of the gastroesophageal and/or laryngopharyngeal mucosa;
- Reduces the time of permanence of the gastric content in the stomach;
- Gluten and Lactose free.

Presentation: 180 ml bottle

Medical Device Class IIa

Shelf Life: 30 months

MOQ: 12.300

GASTROTUSS *light*

A LOW CALORY ANTIREFLUX SYRUP

Hypocaloric Anti-Reflux Syrup

Gastrotuss Light is a Medical Device with mechanical action, indicated for the treatment of gastroesophageal and/or laryngopharyngeal reflux and whenever a low-calorie and a hyposodic diet is required in adults and children.

- Reduces symptoms related to Gastroesophageal Reflux, like: globus sensation, cough, pyrosis, esophagitis, dysphonia, rhinopharyngeal phlogosis, disepithelization and regurgitation;
- With Magnesium Alginate, which forms a mechanical barrier against the retrograding of the gastric contents;
- Adjuvant in the re-epithelization process of the mucosa;
- Reduces the time of permanence of the gastric content in the stomach;
- Low in calories and sodium, therefore indicated for overweight/obese and diabetic patients, or in all cases where a low-calorie and/or low sodium diet is needed;
- Gluten and Lactose free.

Excellent in synergy with PPI

Presentation:

- 500 ml bottle

MOQ: 5.000

- 200 ml bottle

MOQ: 12.000

Medical Device Class IIa

Shelf Life: 24 months

PepsinO[®]

TO PROTECT AND REPAIR THE LARYNGOPHARYNGEAL MUCOSA

Oral Spray

PEPSINO is a Medical Device with mechanical action, indicated for the reduction of laryngopharyngeal symptoms of gastroesophageal reflux.

- In case of Chronic throat-clearing, globus sensation, Hoarseness, Chronic cough, Dysphagia;
- Hyaluronic Acid lubricates the laryngopharyngeal mucosa, helping the re-epithelization processes;
- With Magnesium Alginate, which seizes the Pepsin in the refluxate and forms a bioadhesive barrier, limiting the contact between the pharyngo-laryngeal mucosa and the refluxate;
- Antioxidant activity thanks to Hyaluronic Acid and Camellia Sinensis.

Presentation: 30 ml bottle

Medical Device Class IIa

Shelf Life: 30 months

MOQ: 6.200

NoctiTuss

TO CALM COUGH AND PROTECT THE MUCOSA

Dry Cough Syrup

Noctituss Cough Syrup is a medical device containing a synergistic association of plant extracts (Mallow, Marshmallow and Hedge mustard) and honey, with mucoadhesive, emollient and soothing properties. Indicated in the symptomatic treatment of dry/tickly cough, also reflux-induced, day and/or night, both in adults and children over 1 year.

- Creates a protective barrier;
- Promotes hydration;
- Exerts a soothing and lenitive effect on the oral and pharyngeal mucosa;
- Has an antioxidant and anti-inflammatory effect.

Also in case of reflux-induced cough

Presentation: 200 ml bottle
Medical Device Class IIa
Shelf Life: 24 months
MOQ: 10.600

OftalGerd

A SPECIAL FORMULA FOR REFLUX SUFFERERS

Ophthalmic Solution + Chewable Tablets

OftalGerd is a Medical Device designed to counteract reflux-induced eye surface damage. Gastric refluxate can reach the eye surface causing inflammation and/or structural and functional alterations of this area.

- Oftalgerd ophthalmic solution reduces the eye surface damages while lubricating the ocular surface;
- Oftalgerd tablets prevent the rising of gastric refluxate while also reducing the damages to the eye surface linked to reflux.
