MADE FOR YOU

JOIN GOBBATO WORLD

Traditional Goldsmiths.

The master Benvenuto Cellini said: *"The goldsmith is a person who understands drawing and knows how to transfer that understanding into matter [...]. With the goldsmith's art, all the arts converge and unite: painting through enamels, sculpture with relief, architecture for the shape of reliquaries and jewel boxes. Furthermore,*

as it serves a variety of purposes, it is an ingenious and mechanical art, as well as a fine art and industry." This is the example of the antique and precious know-how of Italian artisan goldsmiths: capturing an emotion, or an important experience and translate it into jewels you will always have with you wherever you go. For more than 45

years, in fact, this has been the core of our business: create jewels with love to be loved forever. Perfect blending of antiques techniques, where a skilful hand makes precise and careful movements, and the latest technology, which allows extreme precision, our jewels want to be the symbol of the eternal beauty.

OUR COMPANY

45 years of quality and passion.

Realisation of Enzo Gobbato dream, the Company was founded in 1970 in Piazzola sul Brenta, and then move to its current premises in Camisano Vicentino. The passion for craftsmanship and creativity has been the key to our success, allowing us to quickly conquer the Italian and foreign markets, making Gobbato jewels

“ambassadors of universal feelings”. Ideas, value and passion are still the Company’s principles as it is committed to continuing along a trail blazed with conviction and success. Gobbato jewels are certified “100% Made in Italy”, featuring a Traceability & Fashion nr. AGR 0107A as proof of transparency and quality.

MADE FOR YOU: our slogan expresses our ability to create personalised jewels for our customers.

TECHNOLOGY & CRAFTSMANSHIP

A winning combination.

The typically Italian sense of beauty is the driving force at the heart of our collection. Respectful in using precious metals from Conflict Free sources, our creations combine ancient skills such as engraving, chiselling, mounting with modern cnc cutting techniques, laser welding, 3D modelling and proto-fusion. Exquisite

and unique: all our jewels are created by passionate hands of men which give that beauty and uniqueness which no machines can compete with. We strongly believe that design is an evolving concept, thus we always look for new technologies which allow us to create state of the art jewels.

DAILY JOY.

How are you feeling today? Sparkling, joyful, or romantic and shy? Elegant or casual? Even the selection of the jewel you wear says something about you to the world. That is why our jewels are so different yet unique, just as every woman. We give our jewels lines that are voluminous, yet light, or rather soft and embracing so you can wear them every day, just as you would when you decide which dress to wear.

KEEP ME CLOSE TO YOUR HEART.

Gobbato Lockets, perfectly represents the essence of Italian handmade products. In our lockets you can find the resume of creativity, competence and care for the single detail. The harmonious hand of the engraver draws the plain surface of the lockets to create unique masterpieces while, with the new machines, we can create new shapes and details.

TIMELESS ELEGANCE.

It takes several hours to create a Gobbato jewel... but a lifetime is not enough to appreciate it; always as magnificent as it was the very first day.
It is impossible to remain unimpressed by the beauty and elegance of Gobbato creations for women.

IT'S A STYLE MATTER!

The Gobbato passion for creating men's jewellery goes back in time: our products and accessories blend perfectly with the attentive, refined and rigorous canons of Italian-style clothing, accompanying today's man in all daily challenges.

CLASS IS IN THE DETAIL.

The Company develops cuff links, bracelets, rings and accessories that are destined to create a distinctive impression and style. Internationally renowned designers, such as architect M. Zucchi or other young talented artists, allow Gobato to create jewellery that emerges at the forefront of the newest trends.
