technical supports

1

Top covering

480 g/m² Stretch fabric made of antistatic technofibre, with cosy viscose. Soft, velvety, hypoallergenic, extremely durable.

Top padding

250 g/m² hypoallergenic fiber padding which provides excellent thermoregulation combined with a high freshness capacity to maintain the correct body temperature in all seasons.

2

Internal structure

TechnoMemory structure, consisting of 3 combined layers of different density and bearing capacity.

Upper layer

Mind Foam® Memory Gel h. 6 cm D38, which helps disperse excess heat.

Central layer

TechnoGreen recycle h. 12.5 cm D45 for balanced body support.

Lower layer

Technocell® h. 3,5 cm D28 for a correct and balanced support of the body.

3

Bottom covering

Highly breathable 320 g/m² Full D Flat fabric for perfect mattress ventilation.
