

MEDICAL
DEVICE CLASS 1
COMPLIANT WITH
UE/93/42 CEE
REGULATION

23 cm

double face

two seasons

removable lining

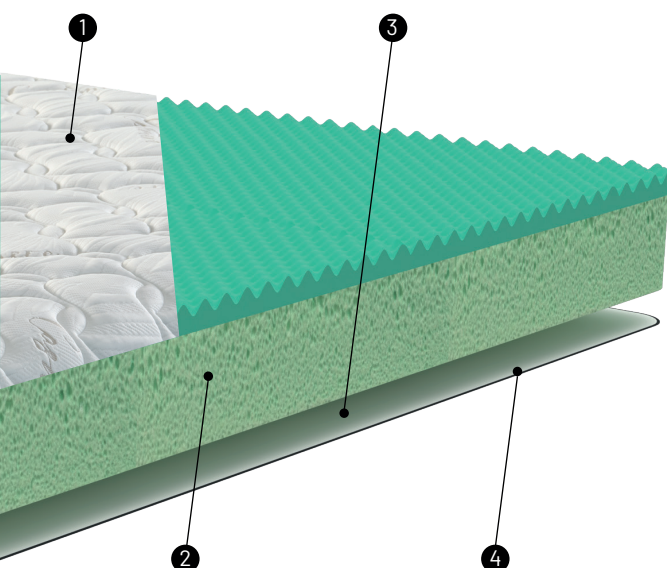

side with
padding

dry clean
memory side

suitable for
technical supports

1

Top covering

380 g/m² stretch fabric made of antistatic technofibre and cashmere, hypoallergenic and thermoregulating, with Sanitized principles.

Top padding

2 cm high Memory Visco Foam padding, which promotes postural wellbeing of the joints during rest by reducing pressure points.

2

Internal structure

Upper layer: 4 cm high Visco Foam memory D45, with Aloe Vera essence, particularly beneficial in balancing and relaxing the body during sleep phases.

Bottom layer: load-bearing and elastic Technocell® h 16 cm D35 with ultra-breathable effect.

3

Bottom padding

350 g/m² hypoallergenic fibre padding that provides a good level of breathability and thermoregulation.

4

Bottom covering

See top covering (1).
