1

Top covering

350 g/m² antistatic technofibre stretch fabric and viscose, also known as artificial silk, for a very soft touch. With Silver treatment, which has anti-microbial and relieves skin irritation.

Top padding

500 g/m² hypoallergenic wool padding, breathable and water-repellent, on the winter side for a pleasant micro-climate.

2

Internal structure

Upper layer

4 cm high Visco Foam memory D45, with Aloe Vera essence, particularly beneficial in balancing and relaxing the body during sleep phases.

3

Bottom layer

2100 independent springs in Super MicroPocket version with 7 differentiated load-bearing zones, to provide the appropriate response to different postural needs.

4

Perimetral structure

Exclusive 8 cm heavy-duty box perimeter reinforcement system for optimal spring performance over time.

5

Bottom padding

500 g/m² cotton padding on the summer side, with heat-regulating and breathable effect.

6

Bottom covering

See top covering (1).
