

MEDICAL
DEVICE CLASS 1
COMPLIANT WITH
UE/93/42 CEE
REGULATION

26 cm

double face

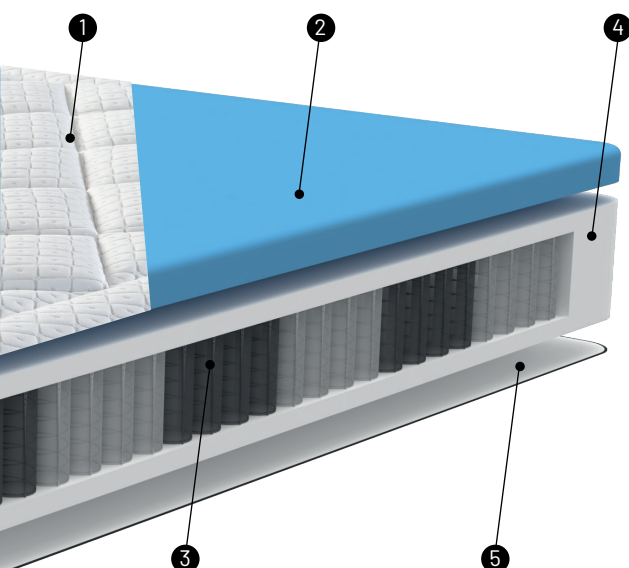

breeze

removable lining

wash

1 Top covering

400 g/m² antistatic technofibre stretch fabric and viscose, also known as artificial silk, for a very soft touch. Hypoallergenic and thermoregulating.

Top padding

500 g/m² hypoallergenic fiber padding which provides excellent thermoregulation to maintain the correct body micro-climate in all season.

2 Internal structure

Upper layer

Viscoelastic and breathable Mind Foam® Memory Gel h. 4 cm D45, with open cells.

3 Bottom layer

2100 independent springs in Super MicroPocket version with 7 differentiated load-bearing zones, to provide the appropriate response to different postural needs.

4 Perimetral structure

Exclusive 8 cm heavy-duty box perimeter reinforcement system for optimal spring performance over time.

5 Bottom covering

See top padding (1).
