flora collection

claudiobettini

flora collection

it valorizes the table

personality
to the interior

**the new line of objects to furnish.
design elements to complete with elegance
the look of the furnishings. skills and workmanship
performed by the best Italian manufacturers**

**made of high quality BA 40/10 antimagnetic stainless steel
not to interfere with digital devices, cold rolled,
placed in ovens in inert atmosphere, then cut to the laser
and polished by hand to mirror one by one**

**the collection consists of ten subjects
particularly suitable for furnishing and qualifying environments
with significant presence, between sculpture and design object**

**the surfaces reflect light and colors present,
for this they integrate elegantly in every environment
in classic or contemporary style**

**the material makes every object alive and radiant,
design creates a meaningful and valuable presence**

**the collection is inspired by historical floral styles
its lines are inspired by nature and were born
in order to create a timeless product
that can maintain its value**

**the line finds references to the industrial revolution
which led to the search for a meeting point
between aesthetics and industry in the production of objects,
and that today we see evolution in the definition
of industrializable arts**

**It is ideal as a centerpiece, on the bedroom furniture or in the living room.
timeless shapes make it perfect as an iconic element
on the meeting table, and in the bookcase.**

**everyone sees it as an element that creates value in the environment,
but also with that curiosity that starts a dialogue ...**
