# ITALIAN CONVERTER®: MISSION

Italian Converter® firmly believes that a successful business needs to create value for the community. Throughout the years, in a textile world undergoing rapid transformation, the company has become a reference point for international leaders in fashion and design, thanks to its ability to draw up ground-breaking solutions and develop new materials and processes with high standards for quality.

In 2021, the company decided to take an additional step towards safeguarding the environment, enacting its own policies, and obtaining the ISO 14001 certification:2015 (environmental management system) and SA8000:2014 (social responsibility) which, together with the certifications already obtained, outline an important route towards the values needed for a circular economy.

Customers who requested adherence to LSR parameters

Italian Converter® RSL signatory suppliers

Since 2017, Italian Converter® has embraced environmental sustainability's challenges by engaging and raising awareness at all levels of its supply chain, by sharing a chemical management protocol and adhering to the corporate supplier code of conduct. A strongly desired strategic choice by the Board of Directors, comprising the Karazissis family

*"We firmly believe that to be successful, a business must also create value to the community. Therefore, Italian Converter® has been moving towards sustainable industry for some time, adopting manufacturing processes that respect the environment and add high social value. There is a need for radical transformation and unprecedented commitment from the whole sector. On the other hand, being an innovator means accepting and overcoming the greatest challenges. And eco-sustainability is the major challenge we are facing today, towards building a beautiful and conscious future"*

An aerial photograph of a dense forest with a large, textured sphere hanging from a tree branch. The sphere has a woven or mesh-like texture and is positioned in the center-left of the frame. The forest is lush green, and a dirt path is visible winding through the trees.

## E.C.O.KOSMOS collection

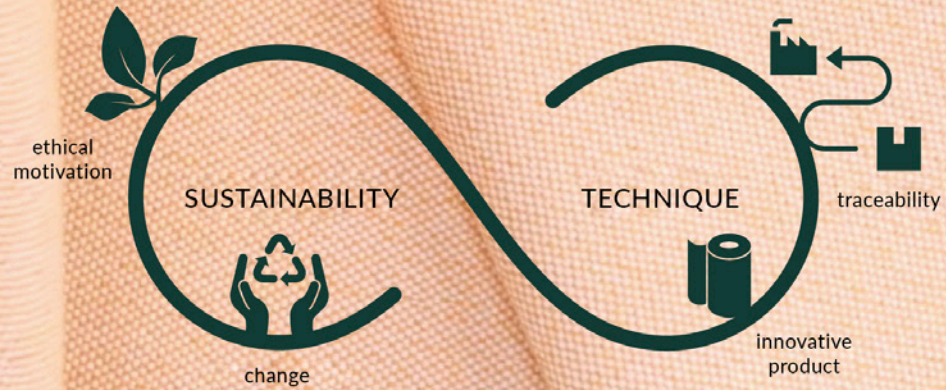

Ecologic Conversion Optimisation

A road made of values, innovation, and determination. In 2017, the first collection of eco-sustainable fabrics was created, "E.C.O. KOSMOS," dedicated to the world of fashion and authenticated according to the certifications: **GRS, RCS®, GOTS, OCS, STANDARD 100 by OEKO-TEX®, BCI, FSC®.**

From the production cycle's start, we dedicate the utmost attention and care to creating safe products with traceable raw materials and transformation processes, finishing, laminating, coating, and embossing with a low environmental impact. A unique contemporary mixture capable of bringing increasingly advanced products to life, season after season.

Design, innovation, and creativity were always our values, and the future requires a new way of interpreting them with the aim of offering contemporary and attentive well-rounded consumer solutions, mirroring a renewed vision and sensitivity.

## ITALIAN CONVERTER®: THE THREE RS

Italian Converter® created this line through a circular economy and changed the method of production, choosing the more complex path to give importance to what they deem “values.” The commitment is in promoting activities and developing projects that favour waste reduction and re-using materials in subsequent production cycles.

**REDUCE RECYCLE REUSE**, the Italian Converter® mantra

Innovation becomes style. Quality becomes sustainable and transparent design.

E.C.O. Clif Generation Heavy

## ITALIAN CONVERTER®: THE PRODUCTS

Italian Converter® products are made with the highest quality materials which are innovative, fully traceable, transparent and with 100% Made in Italy know-how.

Italian Converter® means an ethical approach, attention to environmental impact, maximum care, monitoring transformation and perfecting quality processes.

Italian Converter® is an investment in people and work quality with great attention to market trends.

The products in the E.C.O. KOSMOS line are classified as:

**Natural**

**Recycle**

**High-Tech**

For Italian Converter® SUSTAINABILITY is not just a set of products but a set of VALUES
