HYDRO-REPAIR GEL

LIFTING EFFECT

Properties

The skin around the eyes is extremely thin and daily subjected to contractions of various muscle bundles, stressed by our different facial expressions. That's why wrinkles often appear even at a young age and then, over time and with the loss of skin elasticity, tend to branch out around the eye. Additionally, fluid retention, fatigue, and stress tend to form unsightly 'bags' under the eyes. These discomforts can be easily addressed and prevented with the use of this neutral, odorless gel with a soft texture, ideal for treating devitalized, asphyxiated skin marked by skin relaxation and expression lines.

Formulated as an ultra-concentrated restructuring gel with firming and decongestant properties, it has a pronounced nourishing effect thanks to Hemp oil. Extracts of African Kigelia and Quillaia Saponaria, with powerful antioxidant and moisturizing virtues, effectively contribute to preventing chronological and photo-aging, smoothing small expression lines, and reducing bags under the eyes.

The lifting effect is noticeable from the first application: the skin around the eyes becomes taut, firm, and pleasantly velvety to the touch. The particular microcrystal structure ensures a gradual release of active ingredients (retard effect), ensuring a long-lasting toning and moisturizing action.

Indications for use

Its use is recommended for:

- Attenuate deep wrinkles and fine expression lines
- Attenuate the effect of bags under the eyes
- Combats eyelid skin sagging. The gel-cream consistency is specifically designed for very fine eyelid skin: it penetrates quickly and leaves the skin soft
- Prevents and corrects signs of skin aging in the eye contour

Mode of use

Use daily in the morning and/or evening

- Apply a small amount of product and pat gently from the inside to the outside of the eyelid
- The lifting effect is evident from the very first application.
- Non-greasy, fast-absorbing texture: excellent base for makeup.

Ingredients

Aqua; Quillaja Saponaria Bark Extract; Kigelia Africana Fruit Extract; Xanthan Gum; Cannabis Sativa Seed Oil; Chondrus Crispus Powder; Glucose; Glycerin; Hydrolyzed Rice Bran Protein; Sodium Hydroxide; Sodium Dehydroacetate; Sodium Benzoate; Glycine Soja Protein; Dehydroacetic Acid; Tocopherol; Gluconolactone; Benzyl Alcohol.

Dispenser airless 15 ml
