

RUB RAILS FOR PROTECTION BUILT TO PERFECTION

Tessilmare is a renowned Italian company in the marine sector.

Since 1947 we are producing and creating top level fender profiles, sun-tops, upholstery accessories, and marine fabrics.

Thanks to our know-how and continuous research on the best raw materials, we are especially appreciated for the **high-quality standards** and for our **practical solutions**.

Beyond imagination

The first stainless steel profile in the world without screws granting
protection and extreme **elegance** to any vessels

Unlimited Innovation

The PVC base can be fitted onto the boat and the 3 mt. 316 L S/S bar can be pressure fitted.

High Resistance

Light like a PVC fender profile, strong like a S/S fender profile. And no more rust.

Unmatched Result

S/S bars give a result never seen before. The S/S joint caps and end caps are necessary for a better technical and aesthetic effect.

Very Quick Installation

Binox can be easily installed like our PVC fender profiles cold fitted and in a very short time.

binox

engineered by Rezzonico Ranieri
made by Tessilmare

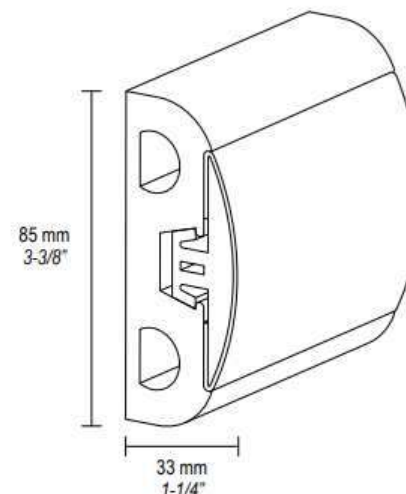

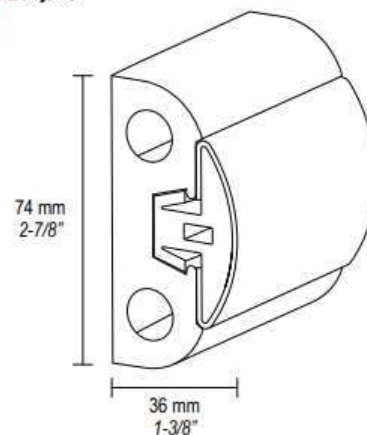

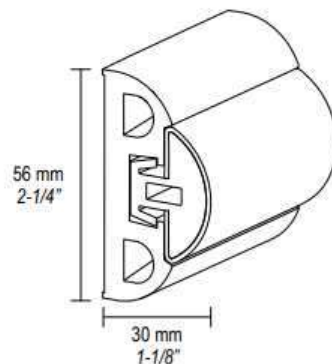

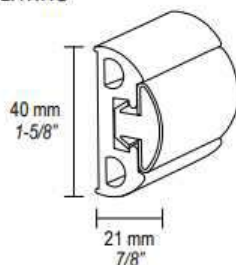

For installation on
flat surfaces

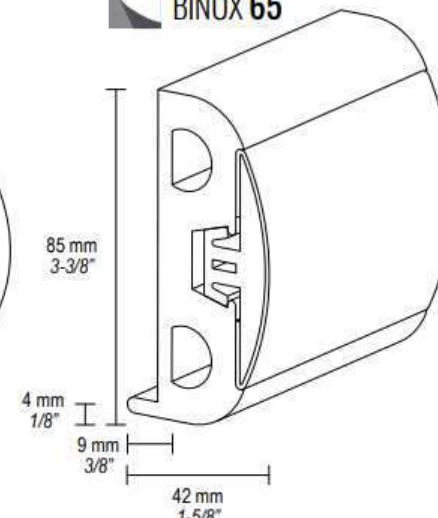

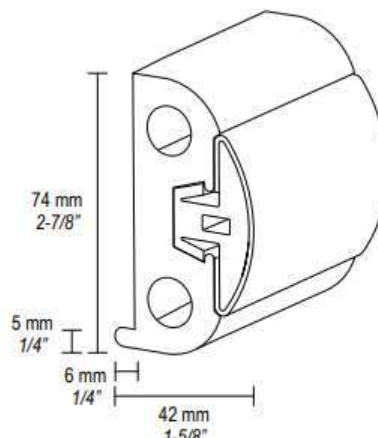

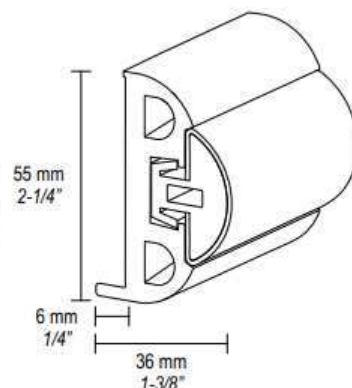

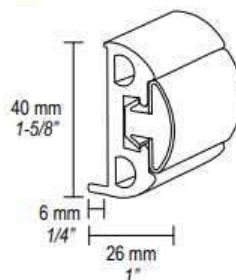

For installation with
deck joint

TESSILMARE

Most Suited Examples:

Pleasure boats, Yachts, Super Yachts, Mega Yachts, Sailboats

Bad examples of Fender Profiles you can find in the market:

- Asymmetrical screws and joints
- Rust issues due to the contact between different steel parts
- Slim base bleached and burnt under the sun
- Unaligned bars and unsightly joints of the base

Our Ultimate Solution

- No more screws
- No more rust
- No more unsightly joints

- More symmetry
- More elegance
- More resistance

Stainless Steel 316 L on top of a PVC base

High resistance under every atmospheric agent
