## CONTOUR BELT

## CLASSIC BELT

All our belts presented in this collection are "**Contour Belt**" (see photo at left). This type of belt is considered of superior quality because it has many advantages compared to a normal classical belt.

- 1) it is much more comfortable when we wear.
- 2) it keeps longer in good condition because it does not take the shape of our body.
- 3) when we bend the knees does not go down on the back the pants and the shirt will remain more fixed in its place.
- 4) the processing of this type of belts is much more artisanal and this makes him a luxury product.

**CONTOUR GENUINE ALLIGATOR BELT - TUBULAR CONSTRUCTION, HIGHT mm 35, SOLID BRASS BUCKLE WITH ALLIGATOR LEATHER.**
