

THE NEW

# SEGURIN

WHY THIS NAME?

The name SEGURIN is inspired by the local dialect of Valsassina, the mountain valley where PRANDI & C. was founded in 1969 and where we are still operating.

The meaning of this word is "small hatchet". With this brand new model of hatchet we want to honor our homeland, its people, our roots.

SEGURIN is the new entry among our models of hand hatchets.

With its very sharp blade and ergonomic grip, it is easy to handle and to carry with you during your outdoor activities like bushcraft, camping, hunting and fishing.
