FUGATRICE

Indications of use

Tool for apply joint between bricks or similar

Art. 2140

FUGATRICE is an accessory, applicable to any drill driver to inject and filling joint with simplicity and economy. Bricks, exposed bricks, porphyry, various types of paving stones, stones and pebbles of various sizes can be grouted with mortars up to 2 mm in size. The minimum width of the joint must be 6 mm, and by equipping the **FUGATRICE** with special additional nozzles, it is possible to make joints of greater width then 12 mm. The possibility of varying the direction of rotation and the number of revolutions of the drill driver, allows its use in the most varied situations which may require the execution of extreme finishing joints or those a little coarser for large bricks and stones.

Technical Features

Total weight: 80 kg

Mouth dimensions: 12 x 10.5 cm

Length x Width x Height: 122 x 62 x 94 cm

Maintenance

Wash thoroughly after use

Standard Equipment

Rubber cone

cochlea

Nozzle

Ring nut

Total weight: 0.5 kg

Transport Size

Length x Width x Height: 27 x 15 x 15 cm

Total weight: 3 kg
