

LUXURY TILES

MINERAL

Mineral, una collezione con effetti metallici, cangianti e riflettenti, stile industrial, prodotta in gres porcellanato in 4 formati.

Perfetta per ambienti contemporanei e minimali è proposta in quattro colori che riprendono le tonalità e la luminosità dei metalli: platino, ferro argento e corten.

Mineral può essere utilizzata sia a pavimento che a rivestimento, in contesti residenziali o commerciali leggeri.

Mineral , a collection with metallic, color-shifting and reflective effects, industrial style; it is produced in porcelain stoneware in 4 sizes.

Perfect for contemporary and minimal environments, it is available in four colors that reflect the shades and the brightness of metals: platinum, silver, iron and corten steel.

Mineral can be used both on floors and walls, in residential and light commercial contexts.

	PULIZIA SMALTI PREZIOSI - PRODOTTI LAPPATI Le piastrelle decorate con ORO, PLATINO e/o LUSTRO e i materiali LAPPATI non devono venire intaccati con malta, prodotti abrasivi, acidi o alcali concentrati. Fare par- ticolare attenzione sia durante che dopo la posa: questi prodotti possono essere puliti solo con acqua addizionata con detergenti leggeri. Non si riconoscono danni arrecati a questi materiali causati da una impropria manutenzione. Controllare, prima della posa, tonalità, calibro e scelta. Non si accettano reclami relativi a materiale già posato. All'atto della posa prelevare piastrelle alternativamente da diverse scatole. Date le particolari carat- teristiche del prodotto, si consiglia la messa in opera del materiale con fuga. Proteggere le superfici delle lastre durante il corso dei lavori. RIMUOVERE ACCURATAMENTE E TEMPESTIVAMENTE I RESIDUI DI COLLA E STUCCO. Non utilizzare mai detergenti a base acida. Qualora si rendesse indispen- sabile l'utilizzo di detergenti acidi per la rimozione di residui di stucchi e/o colle, procedere sempre ad una prova in zona non visibile e lavare immediatamente dopo l'applicazione, seguendo attentamente le istruzioni del produttore.	CLEANING PRECIOUS GLAZES - LAPPED PRODUCTS The tiles decorated with GOLD, PLATINUM, and/or LUSTER and the LAPPED materials must not come into contact with grout, abrasive agents, acids or concentrated alkalines. Special care must be taken both during and after the installing process: the- se products may only be cleaned with water and mild detergents. Damage to these materials caused by improper maintenace shall not be acknowledged. Before tile installation, please check shade, caliber and choice. No claims will be ac- cepted after tiles installation. While installing, choose tiles alternatively from different cartons. Considering the particular features of this product, we suggest to install the tiles with grout joint. Protect floor tile surface while work is in progress. ADHESIVE AND GROUT RESIDUES SHOULD BE REMOVED THOROUGHLY AND PROMPTLY. Never use acidbased cleaners. In case the use of acid-based cleaners is essential in order to remove grout and/or adhesive residues, always test the product in a small inconspic- uous area first and rinse immediately after application: we strictly recommend following the manufacturer's advice.	NETTOYAGE EMAUX PRECIEUX - PRODUITS ADOUCIS Les carreaux décorés en OR, PLATINE et/ ou LUSTRE et les produits ADOUCI ne doivent pas être en contact avec du mortier, des produits abrasifs, acides ou alcalis concentrés. Faire très attention aussi bien pendant la pose qu'après. Ces produits peuvent être nettoyés uniquement avec de l'eau additionnée de détergents légers. Les dommages à ces matériaux provo- qués par un entretien impropre ne seront pas couverts par la garantie. Avant la pose, contrôler bien la nuance, le calibre et le choix. Les réclamations relati- ves au matériel déjà posé ne pourront pas être acceptées. Lors de la pose prélever les carreaux alternativement de plusieurs cartons. Compte tenu des particulières ca- ractéristiques de ce produit, il est préférable de le poser avec joint. Veiller à protéger la surface des carreaux durant les opérations de pose. ÉLIMINER SOIGNEUSEMENT ET SANS ATTENDRE LES RÉSIDUS DE COLLE ET DE PRODUITS DE JOINTOIEMENT. Ne jamais utiliser de détergents à base acide. Dans le cas où il serait indispensable d'utiliser un détergent acide pour éliminer les résidus de colle et/ou de produits de jointoiment, vérifier en faisant un essai sur une partie non visible et laver aussitôt après application. Nous vous conseillons de suivre les instructions du producteur.	REINIGUNG WERTVOLLE EMAILLEN - POLIERTE PRODUKTE Die mit Platin oder LUSTRO dekorierten Fliesen und die POLIERTE Materialien nicht mit Mörtel, Schleifmitteln, Säuren oder kon- zentrierten Alkalien in Kontakt bringen. Es ist notwendig, diese Produkte vor und nach der Verlegung mit Sorgfalt zu behandeln: Die Reinigung erfolgt nur mit Wasser mit einem leichten Putzmittel. Schaden auf- grund einer unfachgemäßen Handhabung können nicht übernommen werden. Vor der Verlegung empfehlen wir die Farbe, das Kaliber und die Wahl der Fliesen zu kontrollieren. Reklamationen nach der Verlegung werden nicht akzeptiert. Beim Verlegen verwenden Sie die Fliesen aus verschiedenen Kartons. Auf Grund der be- sonderer Struktur des Materials, wird em- pfohlen die Platten mit Fuge zu verlegen. Die Oberflächen der Platten sind während der Verlegungsarbeiten zu schützen. DIE KLEBER-UND FUGENFÜLLERRÜCKST- ÄNDE RECHTZITIG UND SORGFÄLTIG ENTFERNEN. Niemals Reinigungsmittel auf Säurebasis sowie scheuernde Mittel verwenden. Falls zur Entfernung von Fu- genfüller und/oder Kleberreste der Einsatz säurehaltiger Reinigungsmittel umgänglich sein sollte, immer erst an einer unsichtba- ren Stelle einen Versuch durchführen und sofort nach dem Auftragen abwaschen. Sofort nachwaschen mit der Hilfe von den Hinweisen von dem Hersteller.
