M3010FB

LABELLING LINE FOR TWO SIDES APPLICATIONS

GENERAL FEATURES

Automatic labeller for applying two labels or more on cylindrical, flat, oval and polygonal products at the same time. The machine consists in a conveyor and two of the following heads: Classic New 1, 2 or 3 and Plus. In case of wraparound label application a side conveyor is installed. The M3010 are also available with hot or dry overprinting unit and are designed to accommodate an inkjet marking system. The loading and unloading of products can be done manually, or on a rotary table Ø 800 or 1000 mm, or alternatively directly from an existing production line.

ACCESSORIES

Non motorized side wraparound conveyor - upper stabilizer conveyor length 500 or 900 - spacing wheel - orbital aligner - endless screw spacer - pass not pass device - special plate for polygonal products - 3 rolls centering system.
