Collection description:

Concept 1 is to conceive space with unity of form and style, using technical solutions that maintain aesthetic continuity through the environments and their multiplicity of uses, indoors, outdoors, on walls and furniture, in short: all in one. A unique ceramic range designed for every type of application, with a variety of colours and surfaces that can always be combined in an exclusive and personal way. A resistant, eclectic porcelain stoneware in natural and homogeneous shades, with 5 colours, 5 different surfaces and 3 thicknesses. Concept 1 is characterised by minimal surfaces combined with a fine, tone-on-tone surface, which does not alter the colour. The exclusive and innovative texture is an elegant decoration, but in fact it is used indifferently as a covering for both floors and walls. The material is durable, solid, hygienic and safe. The effect is light, discreet, delicately decorative with a textured surface, or simple and neutral with a smooth surface. The most immediate interpretation of the expressive range of this line is given by the continuity, in terms of both colour and surface. This makes it possible to have a single colour while varying the surfaces, or even colour variations using the same sheets. Concept 1 is surprisingly rich in combinations, because it takes advantage of the best technology to offer a combined effect of ceramic surfaces that are unparalleled to date. Concept 1 finally allows decoration to become solid floor.
