

FRESCOES

soffitti tesi - stretch ceilings - spanndeckenn - plafond tendu - techos tensados - سقوف متوترة

www.tecnidecor.com

The textile frescoes are a product of excellence unique of its kind. It is a real rollable wall formed by a very thin layer of plaster manually spread on a fabric (TNT) and subsequently printed. Natural product with zero emissions is applied in adherence to existing walls. The big difference with other similar products is its materiality both to the touch and visual. With this solution you can embellish your rooms with fantastic and unique works of art! Available in many and very rich collections, it can be customized on request.

The wallpaper plaster is certified Class B in the reaction to fire test, the best result from a wall covering according to EN ISO 11925-2, EN 13501 and EN13823.

Thanks to the porous structure, rich in materials that promote sound absorption, our wallpaper gets reverberation reduced. Tested in a reverberation room, according to UNI EN ISO 354: 2003.

Thanks to the composition of natural raw materials, the handcrafted textured wallpapers are completely ecological as they comply with the reference standard UNI EN 12149: 1999
