

Simple. Accurate. Essential.

ExacT[°]: the thermochromic patch that constantly check optimal room temperature conditions.

- **GREEN:** IDEAL ROOM TEMPERATURE (23-25°C)
- **YELLOW:** ABOVE 25°C—TOO WARM
- **BROWN:** BELOW 23°C—TOO COOL

***Peel, stick, and monitor—
no tools needed.***

KEY BENEFITS:

Immediate Visual Feedback

Quickly identify if an item is at the correct temperature range (23–25°C) by observing the label's color.

Ease of use:

Straightforward color changes (brown, green, yellow) require minimal training, reducing potential errors.

Ideal for Sensitive Products:

Suited for drugs, vaccines, administration of platelets and solutions that can lose efficacy, change viscosity, or become compromised.

SUITABLE FOR:

HOSPITALS

HOME CARE

VACCINATION CENTRES
