ON CLOUD

# AU RES

AUGMENTED  
REALITY AND  
REMOTE  
SUPPORT

## ADVANTAGES:

Reduces the costs  
of the interventions

Greater  
efficiency

Eliminates the distances  
thanks to remote assistance

Promotes the sharing of  
know-how throughout the company

Greater security:  
the interventions are  
much simpler and faster

It is completely "hands-free":  
no hands are needed to  
compile reports or take notes
