

FRESH ITALY - Grow and eat the Italian garden

Fresh Italy is a kit for growing vegetables on your balcony, terrace or even indoors.

What's inside

- A box made of FSC-certified cardboard
- 3 flower pots, made of sugar-beet pulp
- 3 bags of compost, made from recycled nappies
- 3 packets of seeds: Genovese basil, cherry tomato and spring onion
- A plant marker for each packet of seeds
- A little cookbook with typical Italian recipes featuring these key ingredients

Purpose

to encourage individual households to actively contribute to the effort to sustain ecological bio-diversity.

Scientifically researched

These seed kits provide science and fun, health and beauty, all in one package.

Eugea srl is a small, innovative enterprise that was founded as an academic spin-off from Faculty of Agriculture at the University of Bologna - a guarantee of the scientific merit of Eugea's original, eco-friendly products.

Social involvement

All Eugea products including FRESH ITALY are hand-assembled in the workshops of Italian Social Cooperatives by their socially or psychologically challenged members.
