Introduction

Luca Pecile started his journey in the footwear industry in 1998.

The passion for this work runs through his veins, he inherited this trade from his father who spent his life in the world of shoes. Being very ambitious and curious, with a great desire to create a legacy, he decided to create his own brand called ton Goût in 2014.

The name ton Goût (meaning 'your taste' in French) is the expression of personal taste.

The first brand presentation was made at PITI UOMO Exhibition in Florence in 2016, continued annually up to date.

The brand is widely exposed worldwide at key trade shows as follows :

CIFF Copenhagen , MICAM Milano,

ATLANTA SHOES SHOW , FASHION COTERIE/SOLE COMMERCE New York , FN PLATFORM Las Vegas,

SUPREME Düsseldorf e München , ESSENZ München.

The first women's collection was made for the FW 20 and featured 2 lines.

Every season our reserch on style, together with innovative ideas, bring us new creations meeting the clients' needs.

Ournwell-structured production process is based on our core values:

- procuring raw materials and components exclusively in Italy
- precise product quality control following all production phases, warehouse storage and delivery
- in-house design team
- highly-qualified and dedicated personnel

Client satisfaction always comes first.

Brand Philosophy *Tom Goût*

"Ogni passo deve essere perfetto ..."
(*"Every step should be perfect ..."*)

This motto is engraved on some shoe soles, packaging paper inside the shoebox together with the brochure on product features and materials used.

Processing techniques

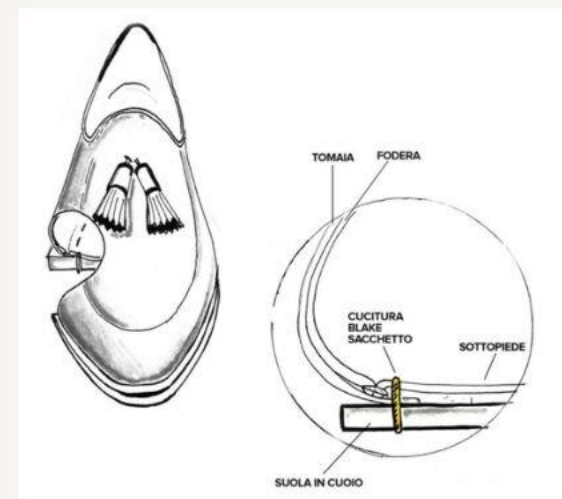

Ton Goût

WE USE NUMBER OF FOOTWEAR PRODUCTION METHODS:

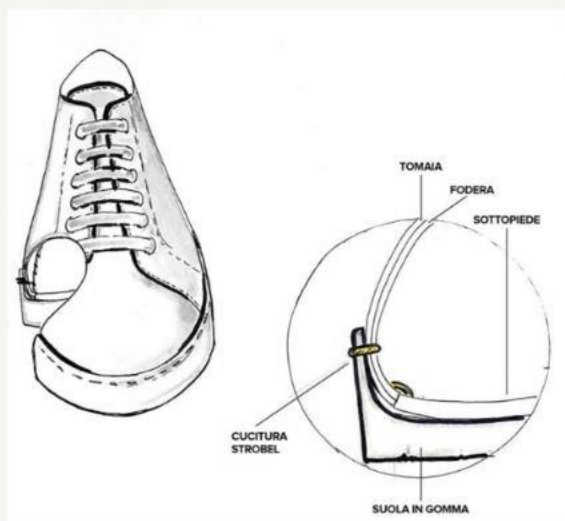

Blake&Rapid
processing

Bologna
processing

Strobel
processing

Garment Dyeing
processing

Soft Leather

All the leather used in our shoes is produced in Italy, and as such offers a very soft touch, for maximum comfort..

Water Resistant

Excellent resistance to wettability

Leather Lining

The lining in many of our shoes is made from Italian full-grain leather, which offers great breathability and comfort.

PRIVO DI ISOCIANATI NOCIVI

Free from harmful substances

Product assembled without the use of glues (Sneaker)

Special Foam Insole Line Sport

A luxurious leather insole with a memory foam, which guarantees maximum breathability and comfort.

Continuous production

Ton Goût

Within each collection there are always continuous items that can be restocked even after several years.

It is always a formal elegant male and a classic formal female expressed on rubber or leather bottom.

These lines can be restocked at any time of the year within a time frame of 4 weeks.

Glue-free sneakers

Tom Goût

For FW21, for the first time we introduce men's glue-free Sneakers.

The construction of the product will be only needle and thread worked in strobel / bag.

Free from harmful substances

Waterproof Women Collection

Ton Goût

We present 3 womens' lines made in water-repellent suede.

All water resistant.

1. Square toe models;
2. Round toe models;
3. Round toe models with 3cm internal wedge;

Men Collection

Ton Goût

We are going to present Men's Collection for FW21 in 4 lines.
All on a rubber sole, both stitched and glued.

Materials: Calves, Buffaloes, Suede.

Certificate

Ton Gout

All our products are certified made in Italy.

The IT01 certification attests that the product has Italian origin.

Packaging

ton goat

We would like to present our product to final consumer with high attention to detail: fine original packaging, high quality materials, careful image and color selection go in line with elevated standards of hand-made production in Italy that we proudly place on every shoebox.
