Spinosi has been producing egg pasta with the utmost attention to quality since 1933. Today, as in the past, we select the finest durum wheat and carefully control all stages of production, because this is the only way to produce pasta with the perfect consistency, which holds its shape well when cooked and guarantees excellent results in all types of preparations.

For our family, pasta is a 90-year heritage.

In 1933 the Spinosi brand was founded, the first one that features and enhances the ancient tradition of homemade pasta in Italy and worldwide.

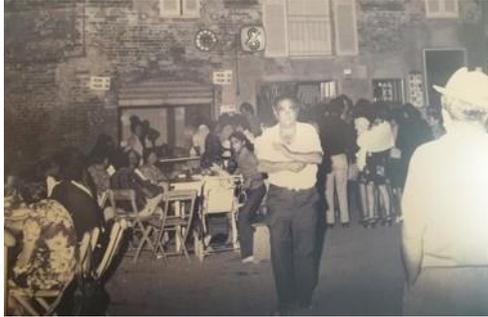

Campofilone; one of the pearls of Marche region which enjoys the salty breath of the Adriatic sea.

In this wonderful scene, Spinosi family begins her evolution, from a homemade small production to the undisputed world notoriety while keeping untouched the original recipe.

Timeline from 1933 to today

1933

Nello Spinosi, soon to become the most important name in the long history of homemade pasta in Campofilone, took 'maccheroncini' his family made on his business trips to Rome to give to his customers.

1960

Nello Spinosi opened his first workshop in Campofilone and began making 'maccheroncini' by hand, producing his very first packet of pasta. He began selling it, turning something that, until then, had only been made for domestic consumption, into a popular product.

1973

Vincenzo Spinosi, Nello's son, opened his first artisan workshop in Cupra Marittima, with a fresh pasta shop attached to it.

1992

Vincenzo Spinosi opened his first artisan workshop in San Benedetto del Tronto, with a shop selling fresh pasta and local specialties next door.

1992

The company received the "Portonovo Award", recognising its contribution to putting the Marche, and in particular the town of Campofilone, on the map throughout Europe, the USA and Asia thanks to its 'Maccheroncini'

2000

Vincenzo Spinosi created a new pasta shape, Spinosini, which he dedicated to his sons Marco and Riccardo. This marked the creation of the brand that went on to conquer the world.

2004

Spinosini, prepared by the chef Roberto Cingolani, were served to Pope John Paul II in Loreto.

2006

Vincenzo Spinosi was awarded the honorary title of 'Grande Ufficiale della Repubblica Italiana'.

Timeline from 1933 to today

2010

Vincenzo Spinosi received the international “Five Star Diamond Award” from the American Academy of Hospitality and Sciences founded by Donald Trump for food and wine excellence in Cannes.

2013

Maccheroncini di Campofilone were given P.G.I. (Protected Geographical Indication) status from the European Union thanks to the involvement of the Association of Maccheroncini di Campofilone Producers, chaired by Vincenzo Spinosi.

2015

Vincenzo Spinosi was chosen as the face of the Marche in the World at the Milan EXPO, one example of the excellence of the local products from the region.

2019

Zero+ was created, the first egg pasta made with red lentil flour for sports lovers and anyone who likes to watch their weight. This organic product has a high protein and fibre content.

2021

To represent the excellence of the Marche region's “Know-How,” Oscar-winning director Gabriele Salvatores immortalized Vincenzo Spinosi and his company in the video that will be screened inside the Italian Pavilion at the EXPO in Dubai. This is how Salvatores wanted to achieve the goal of capturing the manual skill, craftsmanship, tradition and history of the first artisan workshop in Campofilone.

2022

FIRSTPRIZE at the “Gulfood Innovation Award 2022”, during the Expo 2020 Dubai, in the category “Most Innovative Health, Wellness and Plant Based Product” with “Fettuccine ZERO+.”

Values

TRADITION

A CRAFT and a know-how handed down over time and consolidated over the years through direct experience. In our company, even today, the eggs are broken by hand.

TERRITORY

We are Italians, deeply connected to our territory and our cultural roots. We work hard every day to uphold tradition and preserve the authentic taste of homemade pasta.

QUALITY

Our egg pasta is mainly produced using durum wheat semolina grown and milled in Italy, and fresh whole Italian eggs from free-range chickens that are fed organic feed.

RESEARCH

Our company history is a family path of continuous evolution. A path of RESEARCH, with the curiosity to constantly experiment and renew our offer in terms of the product and **zero-impact packaging.**

Production

MADE WITH ONLY THE FINEST INGREDIENTS

Since 1933 we have always used ingredients of the highest quality for our egg products. Our egg pasta is made almost exclusively with 100% Italian whole fresh eggs from free-range hens which are raised outdoors and fed organic food. In our company, even today, the eggs are broken by hand.

PRODUCED USING TRADITIONAL BRONZE DIES

The pasta sheets used to make Spinosi products are extruded through bronze dies: during this slow but quality process, the dough is pushed through the holes in the die. The process is very precise and gives firm, tasty and rough-textured pasta which retains all the goodness of fresh pasta.

Production

“COMBED” ON THE BACK OF A KNIFE

According to tradition, the pasta cuts are “combed” on the back of a knife, laid on the traditional sheets of folded white paper by hand and left to dry at a low temperature for at least 24 hours. This process ensures the pasta preserves all the flavour of traditional homemade pasta.

SLOWLY DRIED AT LOW TEMPERATURE

The pasta is dried slowly for at least 24 hours at low temperature and this allows us to preserve all the nutritional properties of the ingredients, namely the proteins, antioxidants, fibres and amino acids. This is essential for a healthy diet, as well as making the pasta easy to digest.

MACCHERONCINI of Campofilone IGP

DESCRIPTION

Maccheroncini di Campofilone IGP are different from any other kind of pasta because they are extremely thin and finely cut. Furthermore, they are made with whole fresh eggs, which we still break by hand, and durum wheat semolina, without any water. This means they cook in just one minute. The name of Nello Spinosi is mentioned in the production regulations, recognising him as the exclusive owner of the very first artisan workshop which made 'maccheroncini' in Campofilone.

TAGLIATELLE of Campofilone

DESCRIPTION

Tagliatelle are much-loved by Italians throughout Italy. They are very popular in Emilia where they are usually prepared with a meat sauce. Their name comes from the verb 'tagliare', which means 'to cut'. Tagliatelle are around 5 mm wide. They are made with durum wheat semolina and 100% Italian fresh eggs.

INGREDIENTS

Durum **wheat** semolina, fresh **eggs** 33,4%. It may contain traces of **soy** and **mustard**.

CHARACTERISTICS

Packed: 250 g (for 4 people)
Cooking time: 2 minutes
Country of production and milling of wheat: Italy
Shelf life at room temperature: 18 month
Umidity: <12.5% at origin

PAPPARDELLE of Campofilone

DESCRIPTION

Pappardelle is a large type of pasta and it differs from tagliatelle in size: they are about 13 millimetres wide and about 2 millimetres thick. The width of the ribbon is thought to enhance the flavour of the pasta. They are made with durum wheat semolina and 100% Italian fresh eggs.

INGREDIENTS

Durum **wheat** semolina, fresh **eggs** 33,4%. It may contain traces of **soy** and **mustard**.

CHARACTERISTICS

SPINOSINI®

by Vincenzo Spinosi

DESCRIPTION

In 2000 Vincenzo Spinosi was looking for an original product to celebrate the new millennium: he came up with this rather unusual shaped pasta in a joint project with the Faculty of Agriculture in Ancona. Spinosini are like 'spaghetti alla chitarra', they hold their shape and are very versatile, going well with any sauce, whether it be meat, fish or vegetable. The name comes from the affectionate nickname given to the Spinosi boys, Marco and Riccardo: the Spinosini! Today Spinosini are popular the world over.

SPINOBELLI® by Vincenzo Spinosi

DESCRIPTION

After creating Spinosini in 2000, which he dedicated to his young sons, in 2009 at the Armani Ginza Tower in Tokyo, one of Armani's most prestigious and luxurious restaurants, Vincenzo Spinosi presented his SpinoBelli for the first time, dedicating them once again to Marco and Riccardo who were by then grown up. Unlike Spinosini, SpinoBelli have a larger cross section and they replaced the 'tonnarelli' which the company previously produced. The mixture is made with new blends of top-quality semolina and 100% Italian whole fresh eggs which we still break by hand.

INGREDIENTS

Durum wheat semolina, fresh eggs 33,4%. It may contain traces of soy and mustard.

SPINOSINA®

by Vincenzo Spinosi

DESCRIPTION

Vincenzo created Spinosina in 2012, which he dedicated to his granddaughter, Emma. The cut is similar to that of a flattened 'spaghetti alla chitarra' and the shape to that of the Spinobello, but they are thicker and do not overcook. Thanks to their special texture, they go perfectly with elaborate, tasty sauces.

INGREDIENTS

Durum **wheat** semolina, fresh **eggs** 33,4%. It may contain traces of **soy** and **mustard**.

BENTAGLIATI®

by Vincenzo Spinosi

DESCRIPTION

Bentagliati, a trademark registered by Vincenzo Spinosi, is the evolution of the typical pasta found in the Marche called Maltagliati, which means "badly cut". Unlike Maltagliati which have an irregular shape, Bentagliati, "well cut", are rectangular and suitable for fish, legume and vegetable sauces.

INGREDIENTS

Durum **wheat** semolina, fresh **eggs** 33,4%. It may contain traces of **soy** and **mustard**.

FETTUCCINE

with porcini mushrooms

DESCRIPTION

Made using the ancient pasta-making techniques of Campofilone, our classic fettuccine are now flavoured, thanks to the subtle yet distinctive taste of porcini mushrooms. They are best served with a simple and wholesome sauce, even just extra virgin olive oil or a knob of butter. When served with a rustic meat sauce, they become truly special.

INGREDIENTS

Durum **wheat** semolina, fresh **eggs** 33,4%, porcini mushrooms 2,15%, mushroom flavour. It may contain traces of **soy** and **mustard**.

EGG PASTA
HIGH PROTEIN

protein

FETTUCINE ZERO+

Red lentils flour

DESCRIPTION

This organic food speciality has a high protein and fibre content and is ideal for anyone who likes to watch their weight, loves exercise and needs a greater intake of proteins. The red lentils and 100% Italian fresh eggs guarantee a genuine product which still maintains the flavour of traditional pasta. Naturally gluten free, Zero+ egg pasta made with red lentil flour is also suitable for anyone suffering from coeliac disease. Developed in conjunction with **SINSeB** and Prof. Fabrizio Angelini.

INGREDIENTS

Red lentils flour and whole fresh **eggs** 33,4%.

CHARACTERISTICS

Zero Gluten
100% Red lentil flour
More protein
Eggs from free-range hens
OGM Free 100% Italy
Cooking time: 7 minutes

NUTRITIONAL VALUES FOR 100 g

Energy: 1499 kJ/347 Kcal

TOMATO PASSATA

Organic

DESCRIPTION

Tomato passata is made from fresh organic tomatoes processed within 48 hours of harvest and without the addition of salt. It is an excellent base for numerous recipes because the processing is simple and allows us to enjoy the best fresh summer tomatoes in the winter season, just like the real "tomato conserve" our grandmothers used to make.

INGREDIENTS

Italian Organic Tomatoes.

CHARACTERISTICS

Packed: 690 ml
Country of origin of tomatos: Italy
Shelf life at room temperature: 36 month

NUTRITIONAL VALUES FOR 100 g

Energy: 94 kJ/22 Kcal
Fat: < 0,5 g (Of which saturated fatty acids: < 0,1 g)
Carbohydrate: 3 g (Of which sugars: 3 g)
Protein: 1,3 g
Salt: 0,05 g

PRODUCT CODE
PAPOB

OIL

Organic

DESCRIPTION

Our Oil embodies our history and culture, combining ancient knowledge and daily toil. The hard work of the mill workers supports and gives value to this vital product, which passionately conveys great flavour and sensory experiences:

A beautiful intense golden yellow colour with delicate green hues, limpid.

The aroma is strong and enveloping, rich in notes of aromatic herbs, with hints of mint and rosemary, sustained by hints of freshly mown grass and almond.

Complex and vegetal on the palate, with tones of artichoke, chicory and lettuce. Bitter, distinctly spicy, and well balanced.

Extraction system: 2 phases continuous cycle, with cold extraction, within 12 hours of harvest.

CHARACTERISTICS

Packed: 500 ml
Country of olive origin: Italy
Cultivars: 90% Leccino and Frantoio
Max acidity: 0,35%

NUTRITIONAL VALUES FOR 100 g

Energy: 3404 kJ/828 Kcal

- N.1 Organic Basil Sauce of 340 g
- N.1 Spiritosini with almonds of 250 g
- N.1 Spiritosini with Pistachios of 250 g

Ideas, history, tradition, enthusiasm and lots of determination

Vincenzo Spinosi

He is outgoing, explosive and lively. He infects all those around him with his tireless enthusiasm. He needs to communicate with the world and uses everything he has at his disposal to connect with those in the food industry in some of the most exciting cities around the globe. And when his diary starts to get empty, he just jumps on the first plane and off he goes... Armed with his special suitcase, where he keeps his eggs, flour, oil and all his pasta-making equipment, he travels the world making, cooking, flavouring and serving his pasta to anyone who will try it.

This is Vincenzo Spinosi, master pasta maker of Campofilone. A man full of ideas, history, tradition, desire for success and determination. The promotion of the 'Carta delle Paste Italiane' (a catalogue of Italian pasta) for the institution and its official recognition are down to him and his dogged determination. The kitchens of the top restaurants in London, New York, Hong Kong, Tokyo, Paris and dozens of other cities around the world have all witnessed his exhilarating performances, as have passengers 10,000 metres up in the air during long intercontinental flights.

His true success is made up of all his ventures and victories. His latest victory, namely the "Spinisini", afforded Vincenzo Spinosi the title of champion! And while he may show off his little trophy-souvenirs, he hides away the many prizes and awards he has received: like the "Five Star Diamond Award" from the American Academy of Hospitality and Sciences of New York (2000) and the honorary title of Great Officer awarded in 1997 by the President of the Italian Republic Oscar, Luigi Scalfaro and Prime Minister, Romano Prodi.
