

PLEAT UP® JUDO MATS COLLECTION

ITALIAN SPORT PRODUCER

DESCRIPTION

Pleat Up® Judo Mats are the evolution and innovation of judo mats.

Each mat is made in foldable strips or sections of thickness cm 4, completely covered with rice straw texture vinyl and antislip bottom which can be joined together with velcro straps.

The special padding is the result of various researches and tests and is made of high density foam with a rebound equal to traditional judo mat but with a considerably lower weight.

Pleat Up® Judo Mats can be used with traditional judo mats and other strips or sections as each strip or section can be used with other sizes (both Classic and Modular Pleat Up).

When strips or sections are folded, thanks to low weight and small size, allow quick fitting and disassembling of the area that is suitable for multifunctional spaces.

This mat is suitable for judo, aikido, ju jitsu, MMA and all martial arts.

Pleat Up Modular

Folded Mats

Velcro Strap

Antislip material

Vinyl material - Green

Vinyl material - Red

Vinyl material - Blue

MATERIALS

Upper cover made with rice straw texture vinyl 720 gr/mq.
