

BOXING BAG PLAIN COLLECTION

ITALIAN SPORT PRODUCER

Tatami

PATENTED

DESCRIPTION

Boxing Bag made with Btex® a carbon fiber embossing – flame retardant – phthalates free PVC material.

Padding with agglomerated polyurethane foam to obtain the best shock absorption maintaining the shape unchanged and a special patented filling system that simulate the spine of a potential opponent when hit the bag.

Attaching system with chains, carabiners and swivel is included for hooking to ceiling or to a specific wall bearing (not included in the package).

The rings for anchoring the carabiners are put in resistant padded bands to allow greater safety when using the bag.

This boxing bag is suitable for boxing training, both for beginners and professionals, and home workouts.
