

## COLLEZIONE HERITAGE

The passionate fabrics included into Heritage collection are the result of a remarkable craftsmanship know-how, and they enclose the traditional taste of Italian Fashion, fluid textures and soft shapes, natural colors, used aspect, but elegant and never scruffy, actual features of Heritage's Style

The main process to create our product is the textile ennobling, the whole process is realized in order to improve appearance, the touch feeling and physical features such as resistance to tearing and washing, elasticity, breathability and so on. The purpose is to create an high quality product. These processes allow to guarantee quality of final products and therefore become the main step for clothing branch, and for High Fashion

We are also able to customize our fabrics according to the taste of our customers.

Width of our fabrics change depending on the use in garment manufacturing, **from 120 Cm. Up to 165 Cm.**

Weights per linear meter are designed to adapt to any garment from 40 grs / mtl up to 1000 grs / mtl

We dye our fabrics exclusively with custom colors requested by our customers

Our extremely flexible organization allows us to supply fabrics without any minimum quantities

Our products are suitable for any type of womenswear and menswear cloths
