

QUERINI

Corten planter

DESCRIPTION

The modular Querini planter was inspired by the geometric drawing of the entrance floor of the Foundation Querini Stampalia in Venice designed by Carlo Scarpa in the early sixties. The planter is characterized by a wall composition scheme that can be created by aggregating horizontally and vertically the square panels. The vases placed on right and on left create a personal vertical green wall.

DETAILS

Brand	TrackDesign
Designer	Giancarlo Porti
Typology	Planter
Collection	QUERINI
Size	Length 36cm- Width 21cm - Height 21cm
Material	Corten waxed steel
