IRIDE

Corten table

DESCRIPTION

The table made of Corten is inspired by the circular shape of the iris, the eye membrane of variable color. The table top, in epoxy powder coated steel, recalls in the center the pupil of the eye that allows light to pass through the structure and leaves on sight a portion of the large foot in corten. The latter is designed by ten metal segments that emphasize the round and sinuous shape of the base foot. The white *color of the steel top creates a sharp and elegant contrast with the corten color of the underlying structure.

DETAILS

Designer	Alessandra Savio
Typology	Table
Collection	IRIDE
Size	Tabletop Diameter 180cm - Diameter of the base in corten steel 80cm - Height 75cm
Material	Waxed corten steel - Powder coated steel - Tempered glass

*At customer's request other colors of the painted steel tabletop are available.
