

Lemuria®

DREN LIGHT

FOOD SUPPLEMENT BASED ON PLANTS AND DERIVATIVES

Compound based on medicinal plants useful for promoting the drainage of body fluids (heaviness in the legs), the balance of body weight, the purifying functions of the organism and the functionality of the microcirculation.

Physiological Value:

It is a widely tested formula with a dual purpose: to reduce excess fluid in the case of swelling, but also to help those who undertake a diet, to fight hunger attacks.

More than the relevant action of a single ingredient, in this case it is the synergy of the plants contained in the product that develops its beneficial effects.

The pineapple stem, green tea leaves and ash leaves promote the drainage of body fluids. The fucus thallus and guarana seeds stimulate metabolism and promote the balance of body weight.

Directions:

Half an hour before the two main meals, take 10 ml (a little less than a tablespoon) of the product in a large glass of water. For a more effective effect, dilute 30 ml (two full tablespoons) in a bottle of water to be taken as desired during the day. For a strong effect in the first 3 days, add 60 ml in a bottle of water to be taken during the day. Shake before using.

Information from the scientific literature:

Ash: traditionally used as a diuretic

Pineapple: has an anti-inflammatory, fibrinolytic and proteolytic effect

Fucus: traditionally used for the treatment of obesity and overweight

Artichoke: Studies show the ability to reduce cholesterol levels

Guarana: has a stimulating effect and is used as a tonic to better resist the sense of hunger and fatigue

Green tea: Contains caffeine, is a powerful antioxidant and appears to reduce cholesterol and triglyceride levels

Ingredients:

Purified water, Ash (*Fraxinus excelsior* L.) leaves extract 7,2 g, Pineapple (*Ananas comosus* (L.) Merr.) East stem. sec. 7.2 g, Fucus (*Fucus vesiculosus* L.) east thallus. sec. 4g, Artichoke (*Cynara scolymus* L.) east leaves. Sec.2g, Guarana: (*Paullinia cupana* (HBK) Kunth) seeds ext.sec.2g, Green tea (*Camellia sinensis* (L.) Kuntze leaves est. Sec.1g, maltodextrin, concentrated juices of black cherry and pineapple, preservative: potassium sorbate.

Packaging:

200 ml bottle

500 ml bottle
