

# ODOUR NEUTRALIZER LINE

## CONCENTRATE ODOUR NEUTRALIZERS

### DESCRIPTION

Liquid formulations developed to neutralize bad smells coming from several sources, special blends of natural plant substances (flowers, fruits, herbs, roots..) and of processes of industrial biosynthesis, in order to achieve complex mixtures of fragrance and essential oils which can neutralize any odour and gas emission from industrial manufacturing processes, wastewater treatment plants and zootechnics.

### Several examples of odours neutralizers

 <b>MasterDeoAR</b>	<p>Odour neutralizer for <b>nebulization in the air</b>, the product diluted can be applied with fogger, or spraying nozzles.</p>									
 <b>MasterDeoCT</b>	<p>Odour neutralizer by <b>contact</b>. Specific for the industry, for the treatment of:</p> <table border="0"> <tr> <td>rubbish bins</td> <td>compactors</td> <td>dumpsters</td> </tr> <tr> <td>floors</td> <td>manholes</td> <td>walls</td> </tr> <tr> <td>waste treatment</td> <td>carwash-tanks</td> <td></td> </tr> </table>	rubbish bins	compactors	dumpsters	floors	manholes	walls	waste treatment	carwash-tanks	
rubbish bins	compactors	dumpsters								
floors	manholes	walls								
waste treatment	carwash-tanks									
 <b>MasterDeoHT</b>	<p>Odour neutralizer created to <b>neutralize bad smells produced from rests or industrial processes</b>. Specific for the treatment of: <b>scrubbers</b></p>									
 <b>MasterDeoFW</b>	<p>Odour neutralizer created to neutralize bad smells produced from rests, industrial processes, tanks, <b>sludge and zootechnical manure</b>.</p>
