

VEZDESIGN

ORIGINAL CUSTOM PROJECTS

*“To achieve perfection you need dedication, professionalism, research and sacrifice, but passion and love are the true essence, the secret ingredient that transforms an idea, an intuition into a unique and unrepeatably creation. Thinking out-of-the-box with audacity and enthusiasm, we look to the future, this is our spirit and our true energy.”*

**M.V.**

Conceiving and manufacturing products destined to become icons of sturdiness and timeless design, guaranteeing eco-sustainability through the use of recyclable and high quality materials.

since  
**1998**

VezzDesign is an international group that has been carrying out interior design projects specialising in kitchens since 1998. The experience acquired has prompted the development and research of new technologies which, combined with innovative materials, have given life to a new way of interpreting the kitchen.

# MADE IN ITALY

VezzDesign enhances the quality of materials, first creating products of innovative design, highlighting the taste and the quality of Made in Italy. In the heart of the city of Crema we develop and manufacture all our products with passion.

CONCEPT

TRADITIONAL

# LINE KARMA

## Kitchen with STEEL structure

The kitchen is the **heart of the house** to be shown off with pride, it is **the expression of ourselves**.

The Karma line is the mirror of our way of being, a kitchen that traces our past and our future, accompanying us in our life evolutions.

The possibility of being able to change the look of the environment around us, through our patented klik klak by VezzDesign system, is our strength and our starting point.

Assembly

- Klik klak system
- Interchangeable finishes
- Following the current trends
- Durable materials
- Quick and easy to install

Our Karma line has numerous variations, but thanks to its resistance, non-deformability, sturdiness, durability and aesthetic quality it creates an eternal product, thanks to the Klik Klak patented system which is used to quickly and easily vary the finishes, in order to be able to move with the times, following the current trends.

# LINE KARMA

## Features

Eternal

Versatile

Solid and robust

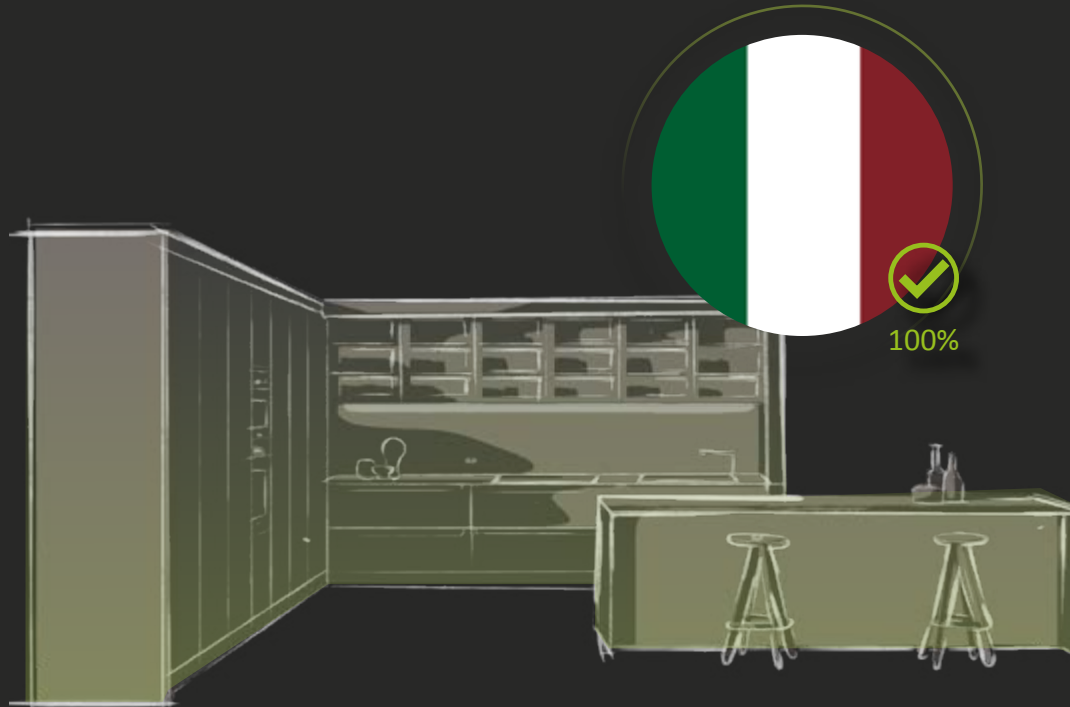

Can be dismantled and reassembled

Eco compatible

100% recyclable

100%  
Made in Italy

- Italian quality
- Italian Design
- Durable materials
- low environmental impact

With our Karma line we aim to use raw materials that are recyclable or rapidly renewable and reusable. The kitchen is made in Italy and reflects the creativity, tradition, quality, elegance and style of Made in Italy.

# LINE KARMA

## Features

Eternal

Versatile

Solid and robust

Can be dismantled and reassembled

Eco compatible

100% recyclable

100%  
Made in Italy

100% water-resistant

 Hydrophilic materials

Unlike old kitchens, our Karma line uses water repellent materials and closing techniques, thereby avoiding the unpleasant inconveniences of doors and worktops damaged and worn by humidity and water infiltrations.

# LINE KARMA

Features

Eternal

Versatile

Solid and robust

Can be dismantled and reassembled

Eco compatible

100% recyclable

100%  
Made in Italy

100% water-resistant

100% fire-resistant

 Fireproof materials

Our Karma line uses fireproof materials and closing techniques. Unlike old kitchens, our kitchens are resistant to heat sources, which can cause fires.

# LINE KARMA

## Features

Eternal

Versatile

Solid and robust

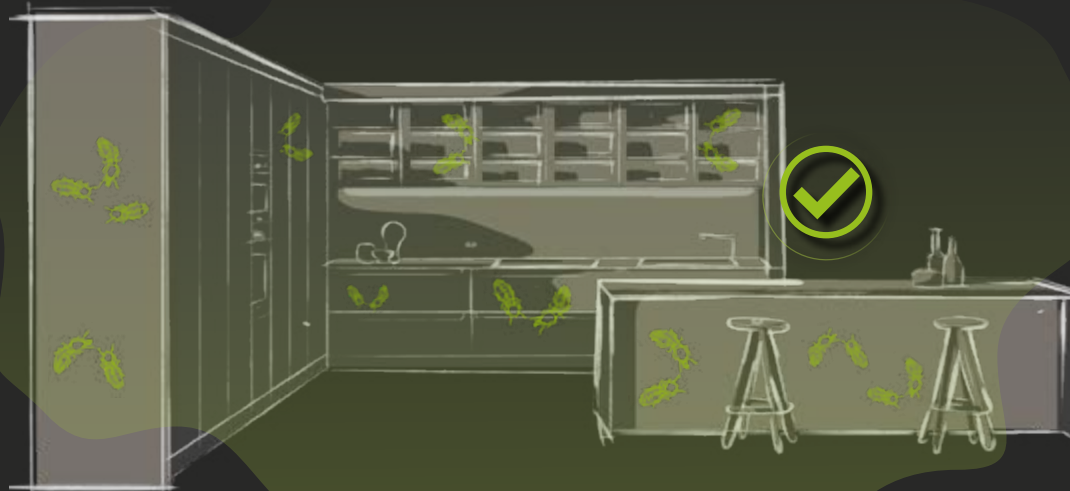

Can be dismantled and reassembled

Eco compatible

100% recyclable

100%  
Made in Italy

100% water-resistant

100% fire-resistant

Termite-resistant

Non  
formaldehyde-  
emitting

Having formaldehyde and termites in your furniture can pose a big problem: formaldehyde is harmful, while termites attack any type of wood, both old and new. Through the use of materials and the high quality of our kitchens we eliminate this problem.

# LINE OUTDOOR

## Outdoor kitchens

The outdoor kitchen is an essential element for anyone who loves the outdoors. Vezzdesign offers you a solid and resistant trendy kitchen with which to enjoy an extraordinary cooking experience surrounded by nature. Enjoying socialising in the garden or on the terrace with family or friends is an essential pleasure.

NEW

| Doors with a protective seal

| Steel version for marine areas with a high salt content

# LINE CONCEPT

## ALL IN 1

The all-in-1 kitchens are versatile, compact and complete for any type of home. They are space-saving solutions, ideal for small living spaces with the possibility of being installed both indoors and outdoors. The added value of these monoblocks is their practicality for moving around and compactness of the structure.

# LINE TRADITIONAL

Melamine kitchens

1

## PRACTICE

Simplicity and purity

2

## MODERN

Dynamism and elegance

3

## CLASSIC

Refinement and class

1

Despite its features of refined simplicity and linear purity, this line emphasises a strong creative character of great aesthetic, practical and functional value.

2

Harmonious design, elegance, brightness and balance strongly interpret the “Kitchen Space” in this version. A dynamic, elegant and refined line destined to last over time.

3

A kitchen with a traditional, extraordinarily harmonious line that evokes the taste of years gone by that is proposed with a touch of refinement.
