MAN A 1919 CP

PRODUCT PHILOSOPHY

MAN is a status symbol and tells a story. It is the best choice for quality free time and the model which best symbolized Allemano's origin. From the tradition of manometers to the Misuratori del Tempo for men (MAN), it is perfect for a man who frees himself from time. MAN has an exclusive movement that enables the minute hand to move from 0 to 60 and to skip back and restart, just like a pointer manometer.
