

BODY CREAM FOR STRETCH MARKS PREGNANCY-FRIENDLY WITH VERY PURE SNAIL SLIME

Body cream with a rich and silky texture, thanks to the presence of the very pure snail slime, it is particularly suitable for blemishes such as stretch marks and scars and for all types of atonic dry skin. The snail slime used is produced exclusively by Italian snails, bred using natural, non-invasive methods and which do not cause any biological damage to the animal. It naturally contains a high quantity of functional active ingredients, such as collagen, elastin, retinol, glycolic acid, allantoin, ascorbic acid, tocopherol, peptides and mucopolysaccharides, which give this cream moisturizing, antioxidant and healing properties. In particular, elastin has a protective action, making the skin more "resistant" to the proteolytic attack of elastase, the enzyme that degrades the elastic fibers compromising the elasticity of the skin and promoting the appearance of stretch marks. It favours cellular turn-over, improves skin elasticity, reduces signs of scars and stretch marks. In addition, the presence of sweet almond oil gives nourishing, emollient and elasticizing properties to the skin, which is smoother, more compact and smoother even after the first applications. The presence of witch hazelnut water, cornflower water and calendula water make this cream not only ideal for fighting annoying stretch marks, but also give the cream a moisturizing and nourishing action, keeping the skin soft and velvety. Hypoallergenic fragrance.

La Linea Cosmetica "Balù alla Bava di Lumaca Purissima è prodotta e distribuita da
DAP SRLS – via Diego Rapolla, 62 – 85029 Venosa (Pz) – P.Iva 02003750763
