COSMETOLOGY

## Active Ingredients

This treatment helps removing the shallow dead cells while preparing the skin for any following treatment, be it a moisturizing cream or a bit of make-up.

**Avocado oil** – It is obtained by the cold pressing of said fruit. It has a large amount of nutrients and is widely and effectively used both in cooking and cosmetics. The pristine avocado oil is rich in Vitamins A, D, E, Omega 3, lecithin, antioxidants, potassium and proteins, all of them useful substances for the well-being of the skin. This oil is particularly effective in the treatment of dry and dehydrated skin and to counter imperfections such as stretch marks, especially in combination with the sweet almonds oil.

**Sweet almonds oil** – Widely known for its gentleness and used for cosmetic purposes for centuries, the sweet almonds oil possesses soothing, softening, nourishing and emollient properties. Rich in proteins, carbs, minerals, Vitamin A and of the B group, it is suitable for every kind of skin, it's useful to prevent skin aging and is used to treat dry and flushed skins, and for the particularly sensible ones, like the children's'.

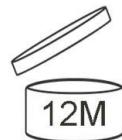

**Sugar:** The sugar contains glycolic acid, a natural exfoliate, and a good antiseptic, because it cleanse and kills the bacteria, it is also a perfect moisturizer for the skin because it takes humidity from the outside and holds it.

Its granules, also, are smaller than the ones of the salt, thus less aggressive and more suited for delicate areas such as the face and other sensible parts of the body.

**Scent:** Milk and Vanilla

**Use:** Apply a generous dose in the moistened skin; massage with for a couple of minutes with round movements to help its action. Rinse with plenty of water.

**Warnings:** Refrain from use in case of allergy or hypersensitivity to one or more of the components. Possible changes in the color or scent of the product are due exclusively to its naturalness. Store up in adequate place. External use only. Keep out of children's reach.
