SCCS™
SKIN COLOR CORRECTION SYSTEM

BLUMIX™

SKIN COLOR CORRECTION SYSTEM

Designed and manufactured in Italy to become the revolutionary leader system for the **SKIN COLOR CORRECTION SYSTEM (SCCS™)**, **BLUMIX™** system covers perfectly the skin and creates a regular and glowing complexion thanks to the use of organic pigments mixed with hyaluronic acid .

BLUMIX™ provides the newest unique combination of the most effective skin therapy modalities safely and gently without trauma to the area.

The stratum corneum is known to be the barrier function of the human skin to protect underlying tissue from infection, dehydration, chemicals and mechanical stress.

Because of its thickness, topically administered drugs do not have the ability to penetrate it. In these cases modulations of the skin penetration are necessary to vehiculate active principles.

BLUMIX™ introduces the **ELECTRO-CHROMATIC INDUCTION™** method based on the mechanical action of disposable micro-tips to open up holes, tiny channels in the stratum corneum, making skin to temporarily become more permeable.

Its mechanical action allows, through the holes, the vehiculation of organic pigments and active ingredients into the skin, improving **SKIN TONE AND COMPLEXION WHILE ENHANCING RADIANCE.**

SKIN COLOR CORRECTION SYSTEM (SCCS™) procedures:

- Skin discoloration (post-traumatic, vitiligo, acne, etc.)
- Wrinkles reduction
- Solar and senile lentigo
- Post- inflammatory hyperpigmentation
- Melasma

Further Procedures

- Revitalizing action of face, neck, décolleté
- Revitalizing action of sensitive areas such as eyes area and bar-code
- Cellulite treatments
- Stretch marks
- Skin laxity

TECHNICAL DATA	
HEIGHT	32,5 cm (12,79 in)
WIDTH	36 cm (14,17 in)
DEPTH	9 cm (3,54 in)
WEIGHT	3 Kg (6,61 lb)
POWER SUPPLY	AC100-240V 50/60HZ
OUTPUT CURRENT	DC12V 100mA
ENVIRONMENTAL OPERATING CONDITIONS	Temperature: 10 / 35 °C Relative humidity: 20 / 75 % Atmospheric pressure: 70 / 106 kPa Ambient temperature: -40 / +70 °C Relative humidity: 10 / 100% including condensation
RPM/MINUTE MICRO TIPS HAND PIECE	4000-6000
POWER SUPPLY MICRO TIPS HANDPIECE	5V, 1000mA

Advantages

- Deep penetration of organic pigments and active ingredients
- minimum product use
- minimum trauma (no need of anesthetic cream)
- customizable treatments
- no downtime

SKIN COLOUR CORRECTION SYSTEM (SCCS™) is the revolutionary system that improves and corrects the skin colour, the system combines the action of **BLUMIX™** device and its innovative products:

WHITEKLASS and **HYALKLASS** make-up of the **KLASS** cosmetics Line.

WHITEKLASS, a whitening solution of chloroacetic, kojic and mandelic acids based.

HYALKLASS make-up, a mixed solution of hyaluronic acid and organic pigments, para bens and phtalates free, available in 4 natural color shades.
