

VITAMINICA

THE POWER OF VITAMINS

VITAMINS AND SKIN

The relevance of vitamins for the health and beauty of the skin is unquestionable.

Scientific interest in their applications in Western countries, where malnutrition and shortages are no longer the order of the day, is increasingly shifting from the now familiar internal to external, cutaneous and cosmetic use.

Within the nature of vitamins, essential natural organic compositions, lies the secret of their simple and extreme efficacy for our beauty.

VITAMINICA

THE POWER OF VITAMINS

It combines BIOEARTH's 20 years of experience in cosmetics and natural supplementation with the most innovative cosmetic applications: a complete, fresh and essential line reveals the natural potential of vitamins in satisfying all needs for all skin types.

- **Vitamins at significant and effective percentages indicated on the label**
- Rich in natural sources of vitamins and ingredients of organic origin
- With selected botanical active ingredients for synergistic activity with each vitamin
- **% natural ingredients above 96-98%.**
- Innovative textures and delicate fragrances
- **Dermatologically tested on sensitive skin**
- **Nickel tested < 1 ppm**
- **Vegan**
- **BIOS NATURAL certificates**
- Recyclable packaging and use of FSC-certified paper
