

ILLUMINATING ANTI-AGING FACE CREAM WITH SAFFRON

50 mL - 1.69 oz Pack

BioMiura Saffron Lifting Face Cream with stretching and lifting action is a next-generation lifting treatment that provides an effective response to the problem of skin aging. It takes advantage of the synergistic action of innovative ingredients, such as: saffron, a powerful antioxidant that prevents aging and gives the face tone and radiance; hyaluronic acid, which guarantees volume and high skin hydration; mullein extract, shea butter, argan oil, coconut oil, and jojoba oil, which collectively act to give the cream its emollient, nourishing and antioxidant properties.

INDICATIONS: The application of the cream is recommended in all regions of tired skin that is subject to loss of elasticity and/or has deep and evident wrinkles.

RESULTS: The Saffron face cream gives an immediate and long-lasting sensation of reshaped, relaxed, and lifted face to counteract already existing wrinkles, and give tone and volume to the skin.

METHOD OF USE: For best results we recommend frequent and constant use over time. Apply to cleansed and dry face, and massage until completely absorbed. Avoid the periorcular area.

CHEMICAL - PHYSICAL CHARACTERISTICS: It does not contain pigments. Its characteristic colour depends on the functional vegetable ingredients. The colour, being of natural derivation, may vary from batch to batch of production. Some slight variations in colouring do not represent alterations of the product.
