

ANTI-AGING LIFT EYE CONTOUR WITH SAFFRON

30 mL - 1.01 oz Pack

The BioMiura Saffron Eye Contour with stretching and lifting action is a lifting treatment that provides an effective response to natural skin aging. The presence of Saffron, with its antioxidant and depigmenting properties, helps to prevent aging and gives radiance. Hexapeptide botox-like, Microalgae and Plankton Polysaccharide act as skin lifting and stretching agents that reduce wrinkles and expression lines. Mullein Extract acts to even tone and provides radiance.

INDICATIONS: It counteracts already existing wrinkles, and gives tone and volume to the skin. In fact, its use is recommended in areas of dry skin that subject to loss of elasticity with deep and evident wrinkles in the eye contour area.

RESULTS: The eye contour area appears rejuvenated, relaxed, and lifted.

METHOD OF USE: Apply to the eye contour area and massage until completely absorbed. We recommend frequent and constant use over time. The BioMiura Saffron Eye Contour should be applied on thoroughly cleansed and dry skin.

CHEMICAL - PHYSICAL CHARACTERISTICS: It does not contain pigments. Its characteristic colour depends on the functional vegetable ingredients. The colour, being of natural derivation, may vary from batch to batch of production. Some slight variations in colouring do not represent alterations of the product.
