CASCINA CARPENETO

13041 BIANZÉ (VERCELLI) - ITALY

We, as a farm, have been growing cereals and legumes since 1800 in compliance with the practices that safeguard the environment and its biodiversity.

We are located in the North-West of Italy, a few kilometers from Vercelli, fully immersed in the countryside of the Po Valley at the board with the Sesia river. It is in this cradle that we are able to preserve several varieties of cereals and legumes which are the most famous in the Italian tradition.

Our company produces cereals and legumes, from which we get delicate with gluten or gluten-free flours. Moreover we produce 32 different types of ready to cook risotto, 9 types of flavoured couscous, 8 types of corn or legumes couscous gluten-free.

All our products are available also organic.

Below is the list of our products

We are happy to help you, do not hesitate to ask for more informations

Your sincerely

Stefania Rosso
