Union B.I.O.® answer: **Phyto
no pick**

NATURAL - SAFE - ECO-FRIENDLY

- **Easy to use, remove the vial cap and apply the dropper**
- **This natural protection based on essential oils and synergistic plant extracts boosted by the MATRICE U.B.® creates a barrier effect, especially recommended during the hot-humid season**
- **Its delicate composition is suitable even during lactation, on puppies and elderly, cats and dogs.**
- **Adults and children can cuddle their animal immediately**
- **With a pleasant fragrance, dyes-free and alcohol-free**
- **For all sizes**

Protect your Animals and your house with a natural and simple action.

Phyto No Pick is a natural product combining the properties of essential oils and plant extracts, its oil-gel solution penetrates easily through the skin for affinity with a long-lasting barrier effect.

Take care, protect your four-legged friends! Make the difference, **do it in an all natural way!**

INFORMATION - Fleas and ticks

Fleas and ticks are insects and parasites, they are present all over the year in the countryside and in the city. The temperature of our houses favours the permanence of these parasites even in the wintertime. They bother our Animals and represent a carrier of pathogens in some cases seriously dangerous, including intestinal, blood and viral parasites, or they can also be responsible for severe allergic reaction. The prevention is the best weapon to avoid the infestation related to the completion of their biological cycle and the onset of pathologies that can put human and animal health at risk.

STRENGTH

- Natural composition with synergistic plant extracts
- It is not a single principle
- Non-toxic, chemical-free
- It is not necessary to keep cats and dogs separated or away from people
- Suitable for puppies or elderly
- Suitable even in case of irritated skin
- Its oily composition is easily absorbed by the skin lipid film increasing its long-lasting action

Recommended with:

Apply **PhytoNoPick** and **cuddle** your animal right after the application with no side effects

MATRICE U.B.^{*1}
water extract of *Olea europaea*.
Polyvalent phytocomplex.

MELALEUCA ALTERNIFOLIA^{*1}
