## Additive Visual Solutions

Products Catalogue

Consultancies, services, products, R&D and solutions in the field of Visual Internet of Things

Tr2 srls  
[www.talkingroad.it](http://www.talkingroad.it) - [info@takingroad.it](mailto:info@takingroad.it)

P.za Manifattura 1, 38068 Progetto Manifattura - **Rovereto (Tn)**  
Via Ardito Desio 60, 00131 Tecnopolo Tiburtino - **Roma**  
Via S. Benedetto 60, 09129 - **Cagliari**  
Via Lavoratori Vittime del Col due Mont, 24, Le Pepinieres - **Aosta**

# Detection Platforms

Consultancies, services,  
products, R&D and solutions  
in the field of Visual Internet  
of Things

## **Markets**

Manufacturing, Engineering, Mechatronic, Mobility, Security, R&D

## **Values**

ICT Team Seniority, participated the most important projects with  
Telco, Energy, Utility, Transportation, e-Gov players

Enterprise technology, portable, integrated and maintained

Innovation and R&D, we constantly innovate our products

Reliability and concreteness

## **Partnership and collaborations**

- University of Verona
- Trentino Sviluppo S.p.A
- Fondazione Brodolini
- Aten-IS R&D

We actively look for Partners

Product Detector

Your cyber eyes,  
Where you need

Fixed video source vs Moving object

Manufacturing, Mechatronic

Detection NOW

your remote detector

[www.detectionnow.com](http://www.detectionnow.com)

Your video URL,  
our detection

WEB based detection service

Personal/Human security

Portable detection

Your Portable Detection

Mutually Moving Object Detection

Mobility, Operations

Detection Platforms

### ICT Standard

System Engineering  
Networking  
System Monitoring, Assistance  
Software Development  
WEB Development  
Ticketing/CRM Solutions  
Video Streaming  
Cloud services

### Innovation

Artificial Intelligence  
Neural Network  
Deep Learning  
Machine Learning  
Computer Vision  
Cognitive System  
Live Digitalization  
Video Digitalization  
Image Elaboration  
Object Detection  
Object Classification

### Applications Category

Shape detection in  
Rotationals  
Chromate surfaces detection  
Live asset detection, tracking  
Raw materials automated  
sorting  
Anomaly detection  
Quality inspection  
Security detection

Capabilities, Services

Product Detector

Fixed video source vs Moving object

Your cyber eyes,  
Where you need

Manufacturing, Mechatronic

Is a technology platform basically a Virtual Machine hosting A.I Verticals for:

- Poly sorting, Poly Casting, Poly Selection raw materials
- Anomaly Detection of surfaces, products, labels, shapes
- Item counting and selecting

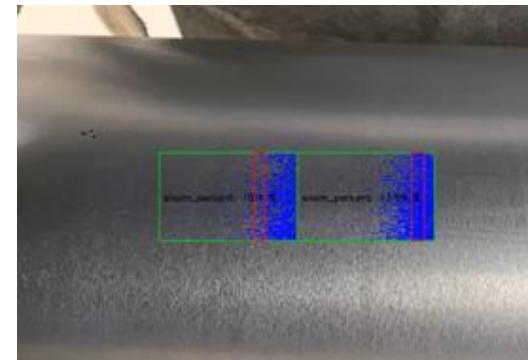

Sorting

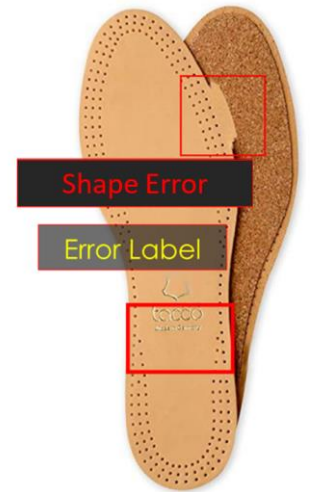

Counting

Tracking

Inspecting

What you get

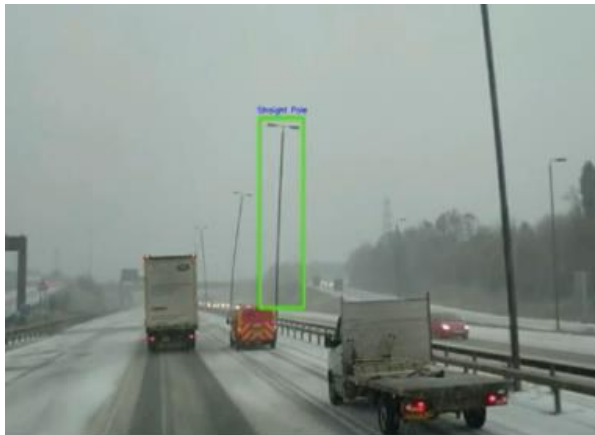

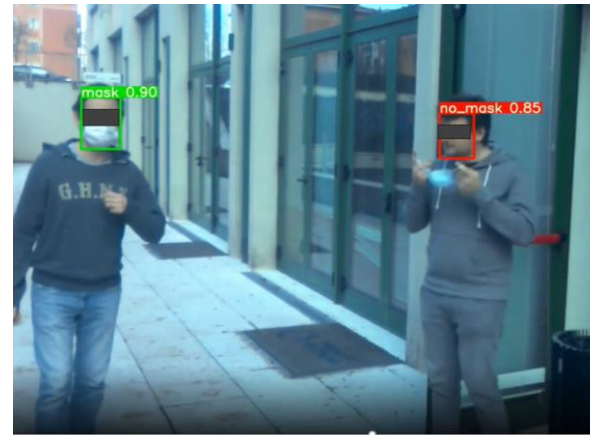

- A Virtual Machine customized
- AI Vertical packages
- Dashboard analytics
- Maintenance service

On request

- Industrial Video/image source
- ICT 3<sup>rd</sup> party integration

ProDe

# Wear-IT

Portable detection

Mutually Moving Object Detection

Your Portable Detection

Mobility, Operations

Is a technology platform basically a Virtual Machine hosting A.I Verticals to perform detection in a reciprocal moving condition from:

- Wearable video devices
- Wearable security devices
- Moving vehicles

What you get

- A Virtual Machine customized
- AI Vertical packages
- Dashboard analytics
- Maintenance service

On request

- Industrial wearable video devices
- ICT 3<sup>rd</sup> party integration

# WearIT

**TR2**  
In Motion Insight

Live detection from Dashcam

Intrusion Detection

Detection NOW  
your remote detector

[www.detectionnow.com](http://www.detectionnow.com)

WEB based detection service

Your video URL,  
our detection

Personal/Human/Home security

Detection now is a WEB service where send your video streams and get detection of what you need:

- Home intrusion
- People recognition
- Object detection
- Digitalization
