# Phact Amazon

VCS Lite. Automatic Invoice Generation.

# Introduction

Phact Amazon is the new automatic billing service dedicated to Amazon Business sellers.

If you are registered with Amazon's VAT calculation service, we can automatically generate (for each shipment) your invoices and credit notes (VCS Lite).

Amazon customers who buy from you will find pdf files to download on their Amazon panel within 2 hours.

You, on the other hand, will find the document files generated on our online panel. You can download them all with a single click (or automatically via API), and import them into your ERP to manage inventory and accounting.

# Advantages of the solution

## Automatic Invoice Generation.

For each shipment, an invoice is automatically generated with the customer's billing data.

## Automatic upload for customers.

Automatic upload of the pdf invoices for Amazon customers, within 2 hours (instead of 24). Even during the weekend.

## Massive download for your ERP.

Download your invoices massively in XML or CSV format. Import them into your ERP to manage inventory and accounting.

# How it works

## 1) Registration

Sign up for the service in minutes. Enter your company details and verify your email address.

## 2) Settings

Enter the activation date of the Amazon VAT calculation service, your Seller ID and the MWS Auth Token.

## 3) Marketplaces

Select the marketplaces in which you operate. If you use foreign companies for billing, add all your company details.

## 4) Check the panel

The service is active. Monitor the status of the generated invoices with our online panel or via the app (iOS or Android).

## 5) Search

Search for the invoices that interest you.  
You can filter the results by period, marketplace, shipping from, etc.

## 6) Download

Download the invoices that interest you in XML or CSV format. You can do it manually or automatically via API.

# Easy API integration.

Not just automatic invoices. With Phact you can make the whole process automatic. Use our API to receive the invoices we have generated in your management software. In this way you will be able to manage your warehouse stocks and accounting in a simple and immediate way.
