

Description

RADICI ITALIANE IS...

An entrepreneurial activity that offers a box with high quality products made in Italy.

Our differential is to link each product to a specific territory and share the history of producers and places, making promotion and enhancement of different Italian regions.

WHAT DO WE PROPOSE?

- 1 - Food and wine excellence of the territory
- 2 - Discovery of the history and of the geographical area where the "selected typical product" is made
- 3 - Knowledge of the producer and the production process
