Vision

Shanti Tailored Sandals operates in the field of handmade Caprese sandals. The company aims to be a meeting point between craftsmanship and innovation, shortening, almost eliminating, the distance between artisan and customer. With the rise of e-commerce we often lose the authenticity of the human relationship. With Shanti it will be possible to maintain this contact even over long distances. Authenticity, service, creativity and innovation are the values that characterize our company. The goal is to create a unique sandal, a sandal that fits every need.

Mission

Shanti Tailored Sandals wants to shorten the distance by creating customized, and bespoke, live ones for each customer who requests it.

Creating together with the client lends authenticity and uniqueness to the final product.

The tools used to create a sandal are suitable for travel so that private events can be created upon request.

The workshop reality of the company turns its full attention to the customer through the meticulousness of the work for the creation of his sandal.

Services

- B2C
- B2B
- Events
- Ceremonies

Choose our company gives you the opportunity to create something unique and inimitable. You too wear the jeweled sandal typical of the Capri tradition.

With handmade experience, it will be tailor-made for you.
