

Overnight Restore.

DERMAL SMOOTHING NIGHT CREAM

A **powerful cream** capable of generating the same results as **dermal smoothing treatments**. Its unique and effective texture leaves skin **smooth** and **velvety**.

INGREDIENTS

This product combines three different specific ingredients: **Bacillus Ferment**, an **enzymatic exfoliant** that promotes skin regeneration; **Achiote**, which reduces **sebum production**; and **Tripeptide**, a molecule that has a **smoothing effect** on expression lines.

BENEFITS

This cream offers both **immediate** and **long-term effects**. The three active ingredients give skin a **smooth, even, and regenerated appearance** by removing dead cells, reducing sebum production, and providing a **plumping, natural effect**. Particularly effective for **vertical facial wrinkles**, it gives the skin a **silicone-like effect**.

75% of people noticed a reduction in **enlarged pores**; **75% of people** found their skin **smoother**; **80% of volunteers** found their skin **less oily***.
