TROLLEY CUPBOARD TROLLEY - KOMPACAT

mod. CA – CA.K

CUPBOARD KOMPACT TROLLEY

The **CUPBOARD KOMPACT TROLLEY** is the professional solution, ideal for the distribution and transport of hot drinks in the ward or in the hall in the professional collective catering, such as communities, hospitals, hotels, canteens and self-service. It is a practical and robust trolley made entirely of stainless steel that guarantees a functional and efficient use by the operator.

The **CUPBOARD KOMPACT TROLLEY** (mod.CA.K), unique in its kind, is built completely in 18/10 stainless steel. The four non-marking rubber wheels, with stainless steel rotating support, one of which with brake, are rotatable 360, with 125 mm, with capacity each. 100 kg.

The structure is equipped with n.2 service rooms equipped for the storage of dishes and equipment for breakfast:

- with opening doors equipped with no 3 baskets Gastronorm 50x50x10 cm on telescopic guides in silent stainless steel and a lower tray in 18/10 steel on guides.
- n.3 large drawers in 18/10 stainless steel on telescopic guides in silent stainless steel.
- The trolley can be easily moved thanks to the stainless steel tubular handle.

The **CUPBOARD TROLLEY** (mod.CA), additionally features:

- a protective handle running along the entire perimeter of the trolley.
- 3+3 Gastronorm baskets (50x50x10 cm) on stainless steel telescopic silent runners, and a lower 18/10 stainless steel tray on runners.

The Cart mod. CA.K. and CA in the versions with THERMAL CONTAINERS without and with resistance, System Bayonet Camurri (mod. AB) ideal for the preparation and distribution of drinks, infusions and decoctions in total safety.
